

2020 Programme Fund: Supporting Argentina's response to the Covid-19 pandemic

World news story

Through a special fund, we are financing projects related to Argentina's response to the pandemic.

Through a special fund of £60,000, we are financing projects related to Argentina's response to the pandemic.

These funds were allocated to local organizations that provide responses to situations generated by the pandemic, such as misinformation, domestic violence, economic recovery with a gender perspective, and training for health personnel, among others.

Details of each project are attached in the document below:
