

# 34th batch of applications approved for trials of green innovative transport technologies under New Energy Transport Fund

The Environmental Protection Department (EPD) today (February 9) announced its approval of the 34th batch of applications for the trials of green innovative transport technologies under the New Energy Transport Fund.

The 30 newly approved applications are for the trials of three electric vessels, four electric taxis, one electric light bus, eight single-deck electric buses and 20 electric light goods vehicles, involving a total subsidy of about \$26 million. The applications are from:

Asia Container Terminals Limited  
Buttons International Limited  
Chun Yan Management Limited  
Chung Shing Taxi Limited  
Concrete Services Limited  
CSX World Terminals Hong Kong Limited  
DS&LJ Investment Limited  
Ever Success Enterprise Limited  
Fong's Logistics Limited  
Fu Ming Tyres Services Limited  
Golden Smart International Travel Agency Limited  
Hongkong International Terminals Limited  
Jubilee Prime Limited  
Kai Fat Harbour Cleaning Services Limited  
L & T Success Company Limited  
Luen Fat Eng.  
Man Fung Auto Limited  
Pet Sensei Limited  
Sang Kee Building Maintenance Company Limited  
Standard Glory Management Limited  
Talent Scout Management Limited  
The Hong Kong Academy for Performing Arts  
Triangle Bus Limited  
Wai Tak Engineering Limited  
Wan Chong Company Limited  
Wan Chun Development Investment Company Limited  
Wash Your Pet Pet (Spa) Limited  
Wholesome Company  
Wing Ming (Car Rental) Company Limited  
Yick Tung Engineering Co.

The latest approval brings the total number of trials being pursued

under the Fund to 256, with a total subsidy amount of about \$209 million.

At present, 163 approved trials under the Fund are already on trial. One hundred and twenty-two of them have completed the trials, involving 71 electric light goods vehicles, 11 single-deck electric buses, three electric taxis, three electric light buses, 47 hybrid light goods vehicles, 27 hybrid medium goods vehicles, 10 hybrid light buses, two single-deck hybrid buses, one solar air-conditioning system for a bus, four electric inverter air-conditioning systems for buses, one diesel-electric propulsion system for a ferry and one seawater scrubber for a ferry. The EPD will continue to upload the trial reports once completed to the Fund's website for public information.

The Government has put in place the Fund since March 2011 to subsidise the testing and encourage wider use of green innovative transport technologies for a variety of commercial transport tools including goods vehicles (including special purpose vehicles), taxis, light buses, buses, vessels, motorcycles, non-road vehicles (applicable to vehicle models approved by the Transport Department or the Airport Authority Hong Kong), or the aforesaid transport tools of charitable/non-profit-making organisations providing services to their clients. The technologies to be subsidised include new energy vehicles or vessels, conversion of in-use conventional vehicles or vessels to new energy vehicles or vessels, and after-treatment emission reduction devices or fuel-saving devices applicable to vehicles and vessels. Transport operators and charitable/non-profit-making organisations may apply for trying out different green innovative technology products subject to a maximum subsidy of \$10 million for each application and a total of \$12 million for each applicant.
