

5G propels HK into smart future

5G is the fifth generation of wireless technology that is expected to change the way people live and work by connecting virtually everyone and everything together.

News.gov.hk spoke to the head of a smart fitness product company and the managing director of a lift engineering firm to find out how their businesses are benefiting from the latest technology thanks to the Government's Subsidy Scheme for Encouraging Early Deployment of 5G.

The story is available at www.news.gov.hk/eng/feature today (November 8) in text and video format.
