

70 days to Independence Day

Let's countdown to Independence and get ready to celebrate our exit.

There are only 37 days left when Parliament is in session and able to try to mess up or delay our passage to Independence.

Write to your MP today if they are showing signs of wanting to stop Brexit and remind them of their Manifesto promises and the result of the referendum and General Election.

The government should be discussing how we commemorate one of the great days of UK history, the day we restore an independent self governing democracy to these islands.
