*A Government World Supplement*

*October - December 2022*

Good Afternoon,

**welters<sup>®</sup>**  
ORGANISATION  
WORLDWIDE

We write to advise that our new mailbox address, for all mail items only (unless otherwise advised), is now:

Whithaugh  
Newcastleton  
Roxburghshire  
TD9 0TB

However, with our ethos of sustainability, we would request that, where possible, all mail items should be sent by email to [admin@welters-worldwide.com](mailto:admin@welters-worldwide.com) or, for the accounts department, to [jackie@welters.co.uk](mailto:jackie@welters.co.uk)

With Kind Regards and Thanks,

The **welters<sup>®</sup>** Team

# welters world™

News and product updates from **welters®** organisation worldwide. A place to share our interesting work in agriculture with our heritage herds, historic site restoration, furniture design, stone manufacturing and much more.

Design and Innovation

# The Originators of Economic Advancement

As a leading force in the design and installation of innovative burial and memorialisation systems, **welters®** prides itself on creating viable working partnerships with Local and private Burial Authorities to achieve long term solutions and economic advancement. Before the advent of our proprietary interment and memorial systems, many local Authorities considered cemeteries to be an unprofitable burden and a drain on resources. With the introduction of WOW burial

chambers, memorial systems and mausolea facilities, the fortunes of these cemeteries has been transformed into aesthetic and viable commodities generating real income and enhancing service provision.

**welters®** have been developing and manufacturing products for a wide variety of purposes for over 30 years in this industry. By combining traditional skills such as sculpture and art with modern computerised design, the company has established the ability to produce high end results at an extremely competitive output. Using this marriage of 'old and new' the company can create modern design protected and proprietary alternatives to historically high cost processes, delivering low cost products of good design and build.

# Warm and Cosy Heifers

Our heifers are tucked in warm and cosy on this winters day. They form a small part of the welters heritage herd breed collection of Black and White Galloways, White Shorthorn and native breeds

# White Galloway Calf

Introducing the first White Galloway calf this year, sired by Heritage Prince. The newest member of our White Galloway herd that forms part of the welters heritage breed collection along with our Black Galloways, White Shorthorns and native breeds. Much more detailed information is available on this and other specialities.

## Pedigree Bull Calf

Introducing our one day old pedigree bull calf, birthed by Heritage Estrella, a white Galloway pedigree cow, and sired by Heritage White Prince. The calf adds to our pedigree rare breed livestock of true excellence and supremacy which, together with our rewilding programmes, forms part of welters ongoing environmental pursuits

# The Art of Agriculture

Advance information will follow shortly...

– details will be issued indicating the release of the young White Shorthorn pedigree bull within the Galloway females, hence creating in the future, the famous Blue Grey progeny, being essential to the bloodline maintenance and development planned and undertaken.

# Scottish Sunset

A beautiful winter sunset over the trees, taken from our Scottish Borders Arboretum. The clouds catch the last rays of light as the sun descends below the horizon.

# A Magical Moment...

...caught on camera as the sun peeks through the trees and glistens on all the dew drops, creating the illusion of rain frozen in time as it falls from the sky. This beautiful pathway is part of the Whithaugh property which is currently under restoration and renovation.

welters® strive to merge nature and technology, creating purposeful and unique products. These orbs are covered in ferns and moss, slowly camouflaging with their surroundings.

## NATURE & TECHNOLOGY - REPURPOSE & REUSE

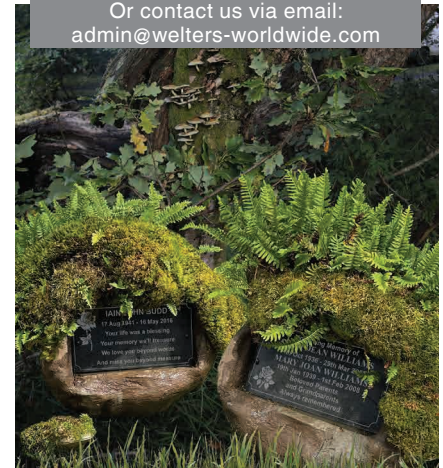

In conjunction with our Made in Britain and Environmental philosophies, welters® strive to repurpose and reuse materials wherever possible in our production processes. Where nature has felled ancient trees, we utilise the resultant

timber to create attractive and purposeful Woodland orbs which can be used for interment and memorialisation. We create structural art by reusing materials, giving them new life, and incorporate repurposed materials into the manufacture of our communal memorials, boulders, stone orbs, standing stones and many more products.

This bronze process can be applied to all of our decorative embellishments. Together, they create an attractive feature with endless permutations.

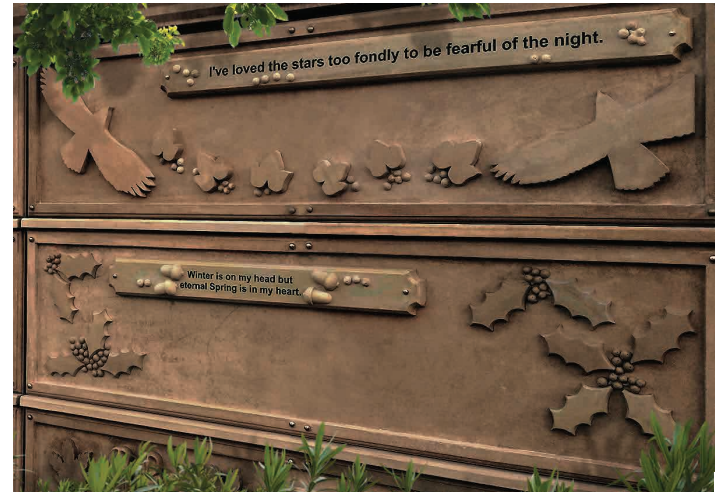

**Our bronze Heritage List memorial system was first established over 20 years ago. These cast systems include a planting area and flower vases as well as a small desktop for added inscription.**

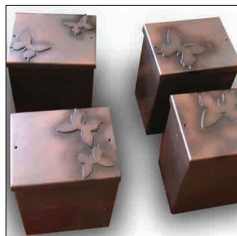

A further example of welters® Embellishments. The embellishments create enchanting friezes on these side charging mausolea fronts and include plaques for inscription purposes.

welters® supply an assortment of additional  
bronze products including caskets and  
fittings.

# Staircase/steps Chassis

Manufactured by welters, this example configuration 'staircase/steps chassis' arrangement is being checked prior to dispatch. This particular assembly is destined for a London site where it will form the base structure for a set of outdoor steps. It will be installed to specification, creating an attractive and functional feature. These chassis can be made to order with a variety of specifications, treads and finishings.
