Our stock includes products for cremated remains interment as well as full body interment, such as these double burial chambers.

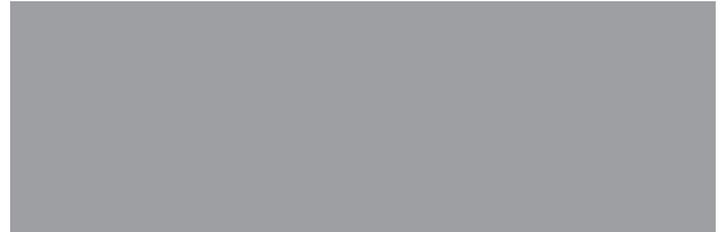

As well as our below ground interment chamber, we supply a large selection of memorials.

A popular memorial on offer is our Royale Headstone as pictured. The stone Royale can be inscribed straight into the stone or...

Our 450 Basilica Memorial is similar in style to the 900 Memorial System. At half with width, it can be used to memorialise cremated remains grave spaces.

The 450 Basilica Memorial can be installed over our cremated remains ground interment. The cavity within the memorial can be used to hold

ains interment chambers or on ground not suitable for below
house cremation caskets.

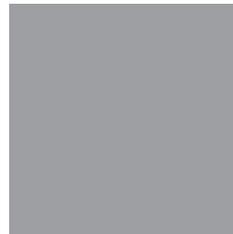

An alternative to the 450 Basilica memorial is our Majestic memorial as photographed below.

The Majestic memorial can be supplied with or without a stone planting frame to the front. Each memorial is supplied with 1 large or 2 small tablets for inscription purposes.

The Majestic memorial can accept up to 4 sets of cremated remains and is modular in design, allowing them to be stacked to provide additional interment options.

Our below ground cremated remains interment chamber can be installed with our Desktop Memorial Housing as well as our 450 Basilica Memorials.

The Desktop Memorial has an aperture hidden behind the inscription lowered, through the housing, into the chamber below. Alternatively, below ground chamber to memorialise scattered remains. Planting
