A smart space for innovation

Smart-Space 8 in Tsuen Wan is Cyberport's first co-working space outside its main Pok Fu Lam campus. Opened in July last year, it plays a strategic role in bringing Cyberport's experience, network and resources in nurturing start-ups and industry talent to the wider community.

News.gov.hk spoke to three young entrepreneurs to find out about the benefits of setting up business at Cyberport's co-working spaces and how the comprehensive support services help them to accelerate their growth.

The story appears on news.gov.hk today (December 8) in text and video format.
