

[Additional handrails at Blackness Library #dundeewestend](#)

Some time ago, I arranged a site visit to the entrance of Blackness Library where a council officer kindly discussed safety at the entrance with representatives from West End Community Council and myself.

The issue was around safe access up and down the steps particularly in the dark during the winter months on the late opening evening.

It was agreed to provide two new handrails and I am pleased that these were put in place recently – see below :
