

## Airmail postal services to Singapore suspended

Hongkong Post announced today (May 4) that, as air traffic capacity can barely be provided, Hongkong Post can only endeavour to maintain Speedpost services to Singapore to facilitate the posting of urgent mail by the public. Even though Hongkong Post has completed the handling procedures after posting, the time required for handing Speedpost items to airlines is subject to considerable delays of more than two weeks. Members of the public may consider using the surface mail service. Hongkong Post has requested the service provider concerned to increase the frequencies of service to up to once per week.

Members of the public may visit the Hongkong Post website at [www.hongkongpost.hk/en/about\\_us/whats\\_new/notices/index\\_id\\_922.html](http://www.hongkongpost.hk/en/about_us/whats_new/notices/index_id_922.html) and refer to the types of services currently available to overseas destinations.

Destination		Types of services currently available	Types of services suspended
Asia	Singapore	Speedpost service, all surface mail postal services	All airmail postal services (except Speedpost service)
