- 1 box containing 30 tablets labelled Бихелдон Praziquantel
- 2 boxes containing 30 tablets labelled Бихелдон Praziquantel

These products are non-UK veterinary products. They can only be administered to animals under Schedule 4 (Administration of a veterinary medicinal product outside the terms of a marketing authorisation) of the VMR by vets who have the animals under their care and have obtained a Special Import Certificate (SIC) to obtain the product.

The possession of these products is an offence under Regulation 26 (Possession of an unauthorised veterinary medicinal product) of the VMR. The administration of these products is an offence under Regulation 8 (Administration of the product) of the VMR.

- 1 part used 100ml bottle labelled Loxicom 1.5mg/ml
- 1 box containing a 20ml bottle labelled Recicort

These products are UK authorised Prescription Only Medicine – Veterinary (POM-V).

Unauthorised possession and administration of POM-V veterinary medicines are offences under Regulation 7 (Classification, supply and possession of the product) and Regulation 8 (Administration of the product) of the VMR.

- 1 box labelled Amoxicilin Capsules 250mg
- 1 box containing a 3.5g tube labelled Maxitrol eye ointment
- 1 box containing a 10ml bottle labelled Chloramphenicol antibiotic eye drops
- 1 box containing a 10ml bottle labelled Clorogen eye drops

These products are UK human medicines. These can only be administered to animals under Schedule 4 (Administration of a veterinary medicinal product outside the terms of a marketing authorisation) of the VMR by vets who have the animals under their care.

On examination of the seized products the following were found not to be veterinary medicinal products and no action was taken against these. These were returned to Ms Kavanagh.
