

Animal medicine seizure notice: Mr Hinds, Cinderford, Gloucestershire

News story

Details of seizure notice served to Mr Hinds of Gloucestershire during an investigation case undertaken by Defra Investigation Services (DIS).

The following products were seized by a VMD inspector as part of an investigation case and under the execution of a search warrant:

- 1 x opened bottle labelled Panacur (UK authorised – POM-V)
- 6 x Noroclav tablets in blister packs (UK authorised – POM-V)
- 1 x bottle labelled “Poison” (unknown content)

The medicines were seized under Regulation 7 (Classification, supply and possession of the product) of the Veterinary Medicines Regulations 2013.

The products were seized as there was no evidence that they had been correctly supplied in accordance with Schedule 3 of the VMR.
