These products are non-UK veterinary product. They can only be administered to animals under [Schedule 4](#) (Administration of a veterinary medicinal product outside the terms of a marketing authorisation) of the VMR by vets who have the animals under their care and have obtained a Special Import Certificate (SIC) to obtain the product.

The possession of these products is an offence under [Regulation 26](#) (Possession of an unauthorised veterinary medicinal product) of the VMR. The administration of these products is an offence under [Regulation 8](#) (Administration of the product) of the VMR.

- 1 box labelled Medicor
- 1 tube labelled Lubrithal Eye Gel

On examination the two-product listed above were found not to be veterinary medicinal products. No action was taken against these.

- 1 open bottle labelled Synulox 100ml
- 1 open bottle labelled Synulox 40ml

Synulox is a Prescription Only Medicine – Veterinary (POM-V). It is an antibiotic treatment for dogs.

Unauthorised possession and administration of POM-V veterinary medicines are offences under [Regulation 7](#) (Classification, supply and possession of the product) and [Regulation 8](#) (Administration of the product) of the VMR.

Details regarding the prosecution of this case can be found under the heading [Prosecutions published in October 2020](#)
