

Arrangements of Drainage Services Department's services

The Drainage Services Department (DSD) announced today (March 1) that starting from tomorrow (March 2), its public services will largely resume as normal.

â€‹ In the interest of public health, various measures will be implemented to reduce social contact and prevent the risk of the spread of COVID-19. Such measures include:

*All DSD staff and members of the public will have their body temperatures checked when entering DSD premises. Only those with normal temperatures will be allowed access; and

*DSD staff who need to perform duties involving face-to-face contact with the public will wear a mask. Members of the public entering DSD premises are also required to wear a mask.

â€‹

DSD facilities will continue to be temporarily closed for public visits or other educational purposes until further notice.

â€‹ The DSD will continue to review the situation and adjust relevant preventive measures as and when necessary.
