# <u>Article - Coming up: vaccines, EU revenue, tourism</u>

Committees

### **Vaccines**

On Tuesday, the <u>environment and public health committee</u> will hear the latest news on the evaluation and market authorisation of <u>Covid-19 vaccines</u> from Emer Cooke, the Executive Director of the European Medicines Agency.

On the same day, the <u>budget control committee</u> will also discuss the current state of the EU's Advance Purchase Agreement on Covid-19 vaccines with Sandra Gallina, the Euroepan Commission's Director-General for Health.

Plenary session

#### EU revenue

MEPs will vote Thursday on the reform of the <u>EU's own resources</u> that will lead to new sources of EU revenue, such as a levy on non-recycled plastic packaging waste.

#### Rule of law

On Wednesday, MEPs will vote on a resolution <u>reiterating their call</u> on the Commission to urgently activate the <u>rule of law mechanism</u> to protect the EU <u>budget</u>. The rules, approved in December, would allow payments from the EU budget to be frozen or cut if a member state has breached EU rules.

## **Dual-use products**

MEPs will vote Thursday on new rules for the export of dual-use goods — products or services such as drones and chemicals that can be misused — to take into account new technologies and better protect human rights.

#### Sustainable tourism

MEPs are set to call on EU countries to include travel and tourism in their Covid-19 recovery plans to support the sectors after the crisis and help them to <u>become cleaner and more sustainable</u>. They will also back a European strategy including a common vaccination certificate to facilitate travel.

# New EU-Africa strategy

The Parliament will vote on its input for a new <u>EU-Africa strategy</u> on Thursday, calling for a move from a donor-recipient relationship to a closer and more equitable one, to face common challenges, such as <u>climate change</u> and the coronavirus <u>pandemic</u>.

### Marine litter

MEPs are expected to call Thursday for more reductions in <u>single-use plastics</u> and more sustainable fishing gear in order to reduce marine litter.
