Article – Parliament lit up in gold to support children fighting cancer

Polish EPP member Ewa Kopacz, who is the Parliament coordinator on children's rights, said: "While we should strive for the prevention of paediatric cancer, we must also work to ensure that all children facing a cancer diagnosis have equal access to treatment and proper care throughout their treatment and recovery."

The Parliament Vice-President, who is a former paediatrician and health minister, added: "By lightning the European Parliament in gold we send a strong signal of solidarity and support to children and adolescents fighting cancer, their families, childhood cancer survivors and professionals serving them. "

Montenegro: Statement by High Representative/Vice-President Jose

Montenegro held parliamentary elections, and local elections in five municipalities, on 30 August, under an electoral legal framework largely unchanged since the last elections, in the challenging context of the COVID-19 pandemic. The elections were peaceful and competitive, with high turnout, and were observed by local and international observers accredited by the State Electoral Commission.

The preliminary findings and conclusions of the international observers from the OSCE Office for Democratic Institutions and Human Rights (ODIHR) and OSCE Parliamentary Assembly highlight that the elections were managed transparently and efficiently, but note intensely polarised debate over issues of church and national identity and a number of concerns in relation to undue advantage for the ruling party and the unbalanced media coverage.

Once the OSCE/ODIHR final report and recommendations are issued, all political actors and relevant institutions need to engage in a transparent, decisive and inclusive dialogue on the implementation of these recommendations to address long-standing electoral shortcomings well ahead of the next elections.

We now look forward to the constitution of a new parliament and the formation of a new government that will continue Montenegro's steady path towards the EU. Montenegro is well advanced in its EU accession process and the months ahead must be used to deepen and speed up political and economic reforms, particularly on the rule of law area, where the next milestone ahead is meeting the Interim Benchmarks for the Rule of Law Chapters 23 and 24.

The European Union is fully committed to continue supporting Montenegro's EU accession process as well as economic recovery following the COVID-19 crisis, including through the upcoming Economic and Investment Plan for the Western Balkans.

Christian Kettel Thomsen appointed as new Vice-President of the European Investment Bank

- **Christian Kettel Thomsen joins as Vice-President on the EIB's Management Committee.**
- **Thomsen will serve a four-year term on behalf of Denmark**

Christian Kettel Thomsen has been appointed Vice-President and Member of the Management Committee of the EIB. He takes up his duties today, succeeding Andrew McDowell, whose mandate on behalf of Ireland ended at the end of August.

The EIB's Board of Governors appointed Mr Thomsen, a Danish national, on a proposal from the Government of the Kingdom of Denmark and with the agreement of the EIB-shareholder constituency the country shares with Ireland, Greece and Romania.

Upon joining the EIB, **Christian Kettel Thomsen** remarked: *"It's exciting to be here, and perhaps even more exciting to join this European Institution in such challenging times. The European Investment Bank will have a crucial role*

to play in making the rebound from the current crisis a 'green recovery', it will be my focus to contribute to that.”

Prior to becoming EIB Vice-President, Mr Thomsen was the Permanent Secretary of State in the Danish Prime Minister's office, as well as a Secretary to the Queen in Council, positions he has held since 2010. Holding an MSc in Economics, which he obtained in 1991, he built up a long track record working at the Danish Ministry of Finance ever since graduation, climbing through the ranks to become deputy permanent secretary at the Ministry in 1997. As of the early 2000's, Mr Thomsen was Permanent Under-Secretary of State in the Prime Minister's Office, before serving as Permanent Secretary of state for Finance in 2005-2010.

The Management Committee is the EIB's permanent collegiate executive body, consisting of a President and eight Vice-Presidents. The members of the Management Committee are appointed by the Board of Governors – the economy and finance ministers of the 27 EU Member States.

Under the authority of Werner Hoyer, President of the EIB, the Management Committee collectively oversees the day-to-day running of the EIB as well as preparing and ensuring the implementation of the Board of Directors' decisions, notably regarding borrowing and lending operations.

[Qatar: Statement by the Spokesperson on the dismantling of the k](#)

The EU welcomes the legal reforms introduced by Qatar on 30 August ending the requirement for migrant workers to obtain their employer's permission to change jobs, while also adopting a non-discriminatory minimum wage.

Once these reforms enter into force, Qatar will become the first country in the Gulf region to dismantle the kefala ("sponsorship") system governing the employment of migrant workers, which gives employers excessive control over

them.

The EU strongly supports these labour legislation reform efforts, which it has long advocated and discussed with Qatar, especially in the informal Human Rights Dialogue.

We also commend the International Labour Organisation for its supportive and crucial role accompanying the Qatari government on its labour law reform agenda. The EU looks forward to the swift implementation of Law No. 18/2020 and further improvements of the legal framework covering workers' rights in Qatar.
