# Green Party

**26 May 2024**

Responding to the news that The Conservatives plan to bring back national conscription, Green Party Co-Leader, Carla Denyer said,

“This policy is removed from reality. It is not what our military needs and it certainly isn’t what our young people need.

“What young people tell us they need is access to the housing market, to higher education that doesn’t plunge them into debt, and to meaningful jobs that pay well.

“Not military conscription.

“It is striking just how removed this Conservative government is from the priorities of young people today”.

# Green Party reacts to new energy price cap

# Green Party

**24 May 2024**

Green Party co-leader Carla Denyer welcomed the latest energy price cap drop, but warned it still left average consumers with bills £400 higher than before the energy crisis.

Denyer said:

“Consumers are still paying for a crisis not of their making.

“Neither the Conservatives nor Labour are offering the real, practical, lasting solutions that can bring down people’s bills and protect the environment by reducing home energy use.

“Fiddling with the price cap is not enough.

“A mass programme of government-backed, council delivered home insulation starting immediately after the General Election is a win-win solution for people and the planet and offers people hope and positive change.

“We could reduce bills for the long term and help reduce greenhouse gas emissions by building new homes that are easier and cheaper to heat and boosting insulation in existing homes. Insulating people’s homes means they can stay warm while using less energy, save money and produce fewer harmful carbon emissions.”

# Green Party

**22 May 2024**

The Green Party welcomes the General Election as the chance for voters to choose hope and practical solutions to the crises facing the country.

Co-leader and parliamentary candidate for Bristol Central Carla Denyer said:

“At last. This is the moment the country has been waiting for – the chance to vote for a different vision of what our country can be. We are urging voters to elect at least four Green MPs to Parliament.”

Co-leader and parliamentary candidate for Waveney Valley Adrian Ramsay said:

“We are ready. Across the country people will have the chance to vote for a Green candidate offering voters hope and practical solutions to the cost-of-living crisis, supporting people into warm, affordable homes, protecting our NHS and cleaning up our toxic rivers.

Denyer added:

“By reforming our tax system to make it fairer – including a tax on the super-rich billionaires and multi-millionaires – we would raise £50billion to invest in our NHS, warmer homes and cleaner rivers.”

Ramsay added:

“We are offering the common sense, affordable policies that will dramatically improve our quality of life. More Green MPs in Parliament will hold whoever forms the next government to account, and make the other parties confront the challenges our country faces. Together, we can make the change.”

## [Green Party backs ICC in seeking arrest warrants for Hamas and Israeli war criminals](#)

Green Party

**20 May 2024**

Responding to the announcement by the International Criminal Court (ICC) that it is seeking arrest warrants for senior Hamas and Israeli officials for war crimes and crimes against humanity, including the Israeli prime minister, Benjamin Netanyahu, Green Party spokesperson for global solidarity, Carne Ross, said:

“The ICC prosecutor’s announcement today sets out in horrifying detail the brutal decisions undertaken by the leaders of both Hamas and Israel.

“Green Party leaders wrote to the foreign secretary David Cameron six months ago setting out how war crimes had been committed by both sides [1]. The UK government must now stop denying the heinous crimes perpetrated by the government of Israel and its defence forces including, according to the ICC, the starvation of civilians, wilfully causing great suffering and intentionally directing attacks against a civilian population.

“This is a big test for David Cameron who has to date refuted any suggestion of war crimes by Israel and refused to reveal the government’s legal advice. Under the Rome Statute, which the UK helped write, he is obliged to support this ICC process. The government’s claim that it supports the international rule of law is being put to the test.”

## Joint Statement with Lord Mann

Green Party

**15 May 2024**

Joint Statement from the Co-Leaders and Deputy Leader of The Green Party and Lord Mann, the Government's Independent Advisor on Antisemitism:

“Lord Mann and the leadership team at The Green Party of England and Wales met last week to discuss the important issue of antisemitism. Both parties have committed to continued dialogue and working together to ensure that antisemitism, like all racism, has no place in Green politics and to better educate Green representatives about anti-Jewish racism. The Green Party has taken a series of proactive steps towards these goals but understands that this will take consistent work going forward.”
