Building Bridges Symposium 2022

Storytelling – inspirations from
Arabic Poetry in the Cairo Genizah

Thursday 17th November

Register for your FREE place at almcollege.ac.uk

The Building Bridges Symposium 2022 is the latest in a series of successful symposiums run by the Al-Maktoum College of Higher Education.

This particular event next Thursday will be focussing on the fascinating and largely unknown history of Arabic poetry fragments found in the eminent Cairo Genizah.

These fragments of ancient poetry constitute a unique source for understanding Medieval and Early-Modern Egypt from three main perspectives: Arabic studies, Jewish social and cultural studies, and anthropological studies.

The 2022 Symposium will feature a keynote speech on the Cairo Genizah, presentations with panel discussions, and an exhibition.

The event is free, although spaces are limited so please follow this link to register your attendance at www.facebook.com/events/1165069744394102

Getting things done – Perth Road

[#dundeewestend](#)

Michael is pictured on the south pavement of Perth Road where we have received residents' complaints about the poor condition of the footpath which has been repeatedly patched and is very uneven.

As one resident put it :

"I have noticed considerable deterioration along this stretch.

This is a narrow footpath which is extremely uneven and badly patched.

When it rains the whole stretch becomes a massive puddle."

We have taken this up with the council's Roads Maintenance Partnership requesting an improved pavement surface here.
