

Safety Audit of Schools

The State Governments and affiliating boards for schools have the responsibility to ensure that schools provide a safe and child friendly environment. This Ministry had written on 27th July, 2004 to all States and Union Territories (UTs) directing that school buildings should be free from inflammable and toxic materials and there should be provision for adequate emergency exits and adequate supply of water and sand for fire fighting purposes. Further, this Ministry's guidelines issued on 9th October, 2014 state that school buildings should be resistant to earthquakes, fire, safe from floods and other calamities.
