Coronavirus (covid-19) infection survey, northern ireland: weekly report

The Department of Health today published the next in the series of weekly results from its COVID-19 Infection Survey (CIS). The findings set out in this report relate to modelled positivity estimates for NI for the week up to the 9 April 2022. The aims of the CIS are to estimate how many people have the infection and the number of new cases that occur over a given time as well as estimating how many people have developed antibodies to COVID-19.

Health and Social Care services over the Easter Bank Holiday

With Easter period approaching, the public are being reminded of the different healthcare services available in Northern Ireland – and how to access them.
