## Lighting at the Kelso Steps #dundeewestend

I recently wrote to the City Council's Street Lighting Partnership Manager as follows :

**"A resident has said he finds the lighting as he walks up the above steps is not adequate.**

**The resident appreciates that even if it is agreed it needs improved, work like this will not be possible until we return to more normal times but I did promise to raise his query and would appreciate your feedback."**

I have had helpful feedback as follows :

**"We've had a look at this and we agree that there needs to be a revision of the lighting provision at the steps here.**

**I will add it to our (very) long list of works ... I give you my assurance that it will remain on the list until such times as it can be done and will not be forgotten about."**
