

Quarterly business receipts indices for service industries for second quarter of 2018

Business receipts in value terms of all major service industries showed increases of different magnitudes in the second quarter of 2018 when compared with the second quarter of 2017, according to the provisional figures of business receipts indices released today (September 10) by the Census and Statistics Department (C&SD).

Comparing the second quarter of 2018 with the second quarter of 2017, double-digit increases were recorded in business receipts of the accommodation services (+16.5%), retail (+12.4%), and warehousing and storage (+12.2%) industries.

Analysed by service domain, business receipts of the tourism, convention and exhibition services domain increased by 13.6% year-on-year during the same period, while those of the computer and information technology services domain also increased by 2.9% year-on-year.

On a seasonally adjusted quarter-to-quarter comparison, business receipts in value terms of a number of major service industries recorded increases of different magnitudes in the second quarter of 2018 when compared with the first quarter of 2018. In particular, business receipts of the accommodation services industry increased by 6.1% quarter-to-quarter. On the other hand, the financing (except banking) industry registered a decrease of 9.1% in business receipts during the same period.

Comparing the second quarter of 2018 with the first quarter of 2018 and on a seasonally adjusted basis, business receipts of the tourism, convention and exhibition services domain increased by 0.8%, while those of the computer and information technology services domain also increased by 1.1%.

Table 1 presents the business receipts indices and their corresponding year-on-year rates of change in respect of selected service industries and service domains for the recent five quarters, while Table 2 shows the corresponding quarter-to-quarter rates of change in the business receipts indices based on the seasonally adjusted series.

The revised figures of business receipts indices for the second quarter of 2018 will be released at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?subjectID=7&tableID=093&ID=0&productType=8) and relevant publications of the C&SD starting from October 19, 2018.

Data for compiling the business receipts indices are mainly based on the Quarterly Survey of Service Industries conducted by the C&SD, supplemented by relevant data provided by the Hong Kong Monetary Authority and the Hong Kong

Tourism Board.

A service domain differs from a service industry in that it comprises those economic activities which straddle different industries but are somehow related to a common theme. It may include all activities carried out by all establishments in a service industry that is closely related to the domain. For a service industry that is less closely related, however, only a portion of the establishments in the industry or even only part of the economic activities of the establishments is related to the domain. Taking the tourism, convention and exhibition services domain as an example, it includes all services of hotels and travel agents, and some (those involving visitors as customers) but not all of the services of restaurants, retailers and transport operators.

The classification of service industries follows the Hong Kong Standard Industrial Classification Version 2.0, which is used in various economic surveys for classifying economic units into different industry classes.

More detailed statistics are given in the report "Quarterly Business Receipts Indices for Service Industries, Second Quarter 2018". Users can download this publication free of charge at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?productCode=B1080006).

Members of the public who have enquiries about the business receipts indices may contact the Business Services Statistics Section of the C&SD (Tel: 3903 7267 or email : business-receipts@censtatd.gov.hk).

[Application for list of establishments from Central Register of Establishments](#)

The Census and Statistics Department maintains a computerised Central Register of Establishments which contains information relating to some 410 000 active establishments in Hong Kong. Information kept in the Register is updated on a quarterly basis through feedback from various surveys of the department and administrative returns from relevant government departments. Information in respect of the second quarter of 2018 is now updated in the Register.

The Register serves mainly as the sampling frame for various economic surveys conducted by the department. In addition, many other government departments and private organisations also make use of the disclosable particulars kept in the Register for their surveys, publicity, business promotion, customer classification and research work. These disclosable

particulars cover the name, address, type of business and employment size class of the establishments. They are available to the public in the following two forms.

20% sample listing

A sample listing containing 20% of the records randomly selected from the Register, together with disclosable particulars of the establishments, is available to users. Users may apply for all or part of the records in the 20% sample listing in writing by providing the following information:

- * Particulars of the applicant (including name, position, organisation, address, telephone, fax and email);
- * Details of the project (including name, purpose, expected completion date, and specifications of information required such as industries, employment sizes and districts); and
- * Medium of delivering the information (e.g. photocopy or CD-R and file format such as Visual FoxPro, Excel or text, if applicable).

The application can be faxed to 2827 2296, emailed to cre@censtatd.gov.hk or posted to the Employment Statistics and Central Register of Establishments Section, Census and Statistics Department, 20/F, Wanchai Tower, 12 Harbour Road, Wan Chai, Hong Kong.

The information can be supplied in the form of CD-R or photocopies at the following rates:

- * CD-R – a charge of about \$1,540 per listing, compiled to the user's requirements (exact amount depending on the complexity of the job concerned);
- * Photocopies – a ready, standard listing is available for photocopying (in part if desired). A charge of \$1.30 per page is levied.

Matching operation with specified establishments

Users may apply to conduct matching operations for a list of establishments in their databases and then extract disclosable particulars for the matched establishments from the Register. The matching operation will be done using the application program supplied by the user and conducted on the computing facilities in the Department. Both the name and address of establishment will be used as matching keys.

Users may apply for this service item by submitting a proposal of the matching operation to the department. The proposal should cover the intended use of the information derived from the matching operation, the specifications of the establishment database provided by the user, the details of the matching process and the specifications of the output data.

The information can be supplied in the form of CD-R. A charge will be

levied at the following rates:

* a minimum charge of about \$4,800 for the service required (exact amount depending on the complexity of the matching operation conducted); plus

* \$1 per matched record with information supplied to the user.

Enquiries

Further details about the above service items can be obtained from the Employment Statistics and Central Register of Establishments Section of the department at Tel: 2582 4760; fax: 2827 2296 or email: cre@censtatd.gov.hk.

[Update on cases of Legionnaires' disease](#)

The Centre for Health Protection (CHP) of the Department of Health today (September 10) reported the latest number of cases of Legionnaires' disease (LD), and stressed the importance of using and maintaining properly designed man-made water systems, and that susceptible groups should strictly observe relevant precautions.

From September 2 to 8, four community-acquired LD cases were reported. They are:

1. A male patient, aged 65 with underlying illnesses, who lives in Block 4, Bauhinia Garden, 11 Tong Chun Street, Sai Kung;
2. A male patient, aged 73 with underlying illnesses, who lives in Godfrey Centre, 175-185 Lai Chi Kok Road, Mong Kok;
3. A male patient, aged 54 with good past health, who lives in Block 29, Park Island, 8 Pak Lai Road, Tsuen Wan; and
4. A male patient, aged 61 with underlying illnesses, who lives in Oi Tai House, Fu Tai Estate, 9 Tuen Kwai Road, Tuen Mun.

"Epidemiological investigations are ongoing to identify potential sources of infection, high-risk exposure and clusters, if any," a spokesman for the CHP said.

As of September 8, 67 LD cases had been reported in 2018. In 2017 and 2016, there were 72 and 75 cases respectively.

"Men, people aged over 50, smokers, alcoholics and persons with weakened immunity are more susceptible to LD. Some situations may also increase the risk of infection, including poor maintenance of water systems leading to stagnant water; living in areas with old water systems, cooling towers or

fountains; using electric water heaters, whirlpools and spas or hot water spring spas; and recent stays in hotels or vessels," the spokesman said.

Legionellae are found in various environmental settings and grow well in warm water (20 to 45 degrees Celsius). They can be found in aqueous environments such as water tanks, hot and cold water systems, cooling towers, whirlpools and spas, water fountains and home apparatus which support breathing. People may get infected when they breathe in contaminated droplets (aerosols) and mist generated by artificial water systems, or when handling garden soil, compost and potting mixes.

Immunocompromised persons should:

1. Use sterile or boiled water for drinking, tooth brushing and mouth rinsing;
2. Avoid using humidifiers, or other mist- or aerosol-generating devices. A shower may also generate small aerosols; and
3. If using these devices, fill the water tank with only sterile or cooled freshly boiled water, and not tap water. Also, clean and maintain them regularly according to manufacturers' instructions. Never leave stagnant water. Empty the water tank, wipe all surfaces dry, and change the water daily.

The public should observe the health advice below:

- Observe personal hygiene;
- Do not smoke and avoid alcohol;
- Strainers in water taps and shower heads should be inspected, cleaned, descaled and disinfected regularly or at a frequency recommended by the manufacturer;
- If a fresh water plumbing system is properly maintained, it is not necessary to install domestic water filters. Use of water filters is not encouraged as clogging occurs easily, which can promote growth of micro-organisms. In case water filters are used, the pore size should be 0.2 micrometres (μm) and the filter needs to be changed periodically according to the manufacturer's recommendations;
- Drain and clean water tanks of buildings at least quarterly;
- Drain or purge for at least one minute the infrequently used water outlets (e.g. water taps, shower heads and hot water outlets) and stagnant points of the pipework weekly or before use;
- Seek and follow medical advice regarding the use and maintenance of home respiratory devices and use only sterile (not distilled or tap) water to clean and fill the reservoir. Clean and maintain them regularly according to the manufacturer's instructions. After cleaning/disinfection, rinse the device with sterile water, cooled freshly boiled water or water filtered with 0.2- μm filters. Never leave stagnant water. Empty the water tank, keep all surfaces dry, and change the water daily; and
- When handling garden soil, compost and potting mixes:

1. Water gardens and compost gently using low pressure;
2. Open composted potting mixes slowly and make sure the opening is directed away from the face;
3. Wet the soil to reduce dust when potting plants; and
4. Avoid working in poorly ventilated places such as enclosed greenhouses.

The public may visit the CHP's [LD page](#), the [Code of Practice for Prevention of LD](#) and the [Housekeeping Guidelines for Cold and Hot Water Systems for Building Management](#) of the Prevention of LD Committee, and the CHP's [risk-based strategy](#) for prevention and control of LD.

Effective Exchange Rate Index

The effective exchange rate index for the Hong Kong dollar on Monday, September 10, 2018 is 104.6 (up 0.1 against last Saturday's index).

The effective exchange rate index for the Hong Kong dollar on Saturday, September 8, 2018 was 104.5 (up 0.3 against last Friday's index).

Appeal for information on missing girl in Kwai Chung (with photo)

Police today (September 10) appealed to the public for information on a girl who went missing in Kwai Chung.

Tsoi Wing-in, aged 14, went missing after she left her residence in Shek Lei (II) Estate on August 7 evening. Her family made a report to Police on August 12.

She is about 1.65 metres tall, 55 kilograms in weight and of thin build. She has a pointed face with yellow complexion and long straight black hair. She was last seen wearing a black and white striped short-sleeved shirt, short black jeans and white sports shoes.

Anyone who knows the whereabouts of the missing girl or may have seen her is urged to contact the Regional Missing Person Unit of New Territories South on 3661 1176 or 5613 6963 or email to rmpu-nts-2@police.gov.hk, or contact any police station.
