Invest Hong Kong (InvestHK) today (August 31) hosted a seminar at the sixth China-Eurasia Expo in Urumqi, Xinjiang Uygur Autonomous Region, to update the local business community on Hong Kong's unique business advantages in the context of the national Belt and Road Initiative and Hong Kong's ability to expand their business globally.

The seminar, entitled "Belt and Road, Together We Grow", was the first such organised by InvestHK in the Xinjiang Uygur Autonomous Region and was supported by the Office of the Government of the Hong Kong Special Administrative Region (HKSAR) of the People's Republic of China in Beijing (Beijing Office).

The Director-General of Investment Promotion, Mr Stephen Phillips, and the Vice-Governor of Xinjiang Uygur Autonomous Region, Mr Hadeerbieke Hamuzha, delivered welcome remarks at the event.

Mr Phillips said, "Hong Kong has long played an active role in facilitating trade and investment between Mainland China and the rest of the world and in recent years, Mainland enterprises' ambition to 'go global'. Xinjiang Uygur Autonomous Region is strategically located at the heartland of Eurasia and has been designated as a core area of the Belt and Road Initiative. It is a key transport and logistics hub, centre of commerce and regional financial centre for servicing trading with central Asia and beyond. I see many opportunities for collaboration. Xinjiang companies can leverage the dynamic business environment provided by Hong Kong, which will help Xinjiang companies better embrace new opportunities aligned with the Belt and Road Initiative.

"Xinjiang enterprises can leverage Hong Kong's world-class financial and professional services to structure and finance projects and merger and acquisition deals, and access the very best accounting and tax, legal, construction engineering design, management and project planning services, as well as manpower training and much more. All these are underpinned by Hong Kong's world-class common law system, which also makes Hong Kong a very suitable location for dispute resolution. What is more, the international outlook of Hong Kong, as the melting pot of the region, can also help Xinjiang enterprises and business communities from Belt and Road countries forge successful partnerships. In the meantime, The Guangdong-Hong Kong-Macao Greater Bay Area will also serve as a powerful connection point for the Belt and Road. Mainland companies should utilise the strong research and development capacity of Hong Kong and the Bay Area's advanced manufacturing. I believe this powerful combination would definitely help any Xinjiang company to upgrade its innovation capability, and in the long perspective, the result would enhance the overall development of industries in Xinjiang."

The Head of the Beijing Investment Promotion Unit of InvestHK, Mr Matt Hu, further elaborated on Hong Kong's business advantages and ways to assist Mainland enterprises to expand overseas at the seminar. Other speakers included the Vice Chairman of Professional Committee on Cultural Industries, Belt and Road General Chamber of Commerce, Mr Chan King-Cheung; the Senior Manager, M&A Tax, KPMG Advisory (China) Limited, Ms Lily Zhang; the Managing Director and Head of Northern China, Global Coverage Centre, BOCI Asia Limited, Mr Wang Yaohui; and the Manager of Issuer Services, Market Development, Hong Kong Exchanges and Clearing Limited, Mr Raymond Yang. They spoke on how to tap into Belt and Road opportunities via Hong Kong, the city's tax incentives and financing advantages, comprehensive professional financial services for Mainland enterprises to "go global", and the latest developments of Hong Kong's listing and securities market.

Applications for Mainland University Study Subsidy Scheme close on September 21

The Education Bureau (EDB) today (August 31) reminded students who are interested in applying for subsidy under the Mainland University Study Subsidy Scheme (MUSSS) for the 2018/19 academic year and who will enter designated Mainland institutions in the 2018/19 academic year for the first year of their studies to submit their completed application forms, together with supporting documents, to the EDB by post on or before September 21.

The MUSSS was launched by the Government in July 2014 to provide subsidy to Hong Kong students who have passed a means test ("means-tested subsidy") to pursue undergraduate studies in designated Mainland institutions. Eligible students will receive either a full-rate subsidy or a half-rate subsidy per academic year, depending on their needs. Starting from the 2017/18 academic year, a "non-means-tested subsidy" is introduced under the MUSSS. Eligible students will receive a flat rate subsidy for an academic year. The subsidy under MUSSS is granted on a yearly basis. The subsidised period will be the normal duration of the undergraduate programme pursued by the student concerned in the designated Mainland institution. Eligible applicants can only receive either "means-tested subsidy" or "non-means-tested subsidy" in an academic year.

For the 2018/19 academic year, the amounts of adjusted full-rate subsidy and half-rate subsidy under the "means-tested subsidy" are HK\$16,800 and HK\$8,400 respectively. The amount of "non-means-tested subsidy" is

HK\$5,600.

Detailed information of the MUSSS, including the 176 designated Mainland institutions, application forms and guidance notes, are available at the EDB website

(www.edb.gov.hk/en/edu-system/postsecondary/policy-doc/musss/2018.html). The EDB will inform individual applicants of the application result by the first quarter of 2019.
