

SHA congratulates Hong Kong gymnast Shek Wai-hung on winning gold medal in Asian Games

The Secretary for Home Affairs, Mr Lau Kong-wah, today (August 24) extended his congratulations to Hong Kong gymnast Shek Wai-hung on winning a gold medal in the Men's Vault event in the 18th Asian Games, being held in Jakarta and Palembang in Indonesia.

Mr Lau said, "Shek Wai-hung has won a gold medal in the same event after his victory in the last Asian Games held in Incheon. He has kept up with his high standard and has demonstrated marvellous techniques. I hope fellow Hong Kong athletes can continue to excel and achieve further good results."

The Hong Kong team has so far won 18 medals, namely two gold medals, four silver medals and 12 bronze medals, at this Asian Games. The list of medals won earlier today and yesterday (August 23) as follows:

Swimming: Women's 4x100m Medley Relay
Stephanie Au, Chan Kin-lok, Camille Cheng and Jamie Yeung

Bronze medal

Fencing: Men's Team Sabre

Cyrus Chang, Lam Hin-chung, Terence Lee and Low Ho-tin

Delivery versus Payment settlement fully implemented in Bond Connect

The following is issued on behalf of the Hong Kong Monetary Authority:

Delivery versus Payment (DvP) settlement has been fully implemented in Bond Connect starting from today (August 24). All trades under the Bond Connect have begun to be settled on a DvP basis. The Hong Kong Monetary Authority (HKMA) welcomes this development.

An HKMA spokesperson said there had been strong market demand for DvP settlement since Bond Connect was launched in July 2017. Thanks to the support of the People's Bank of China (PBoC) and the efforts of the relevant institutions in the Mainland and Hong Kong, DvP settlement has been fully implemented in Bond Connect. This increases settlement efficiency and reduces settlement risks, affording greater convenience to international investors investing through Bond Connect. The HKMA will continue to work closely with the PBoC to enhance the Bond Connect platform.

CS visits Kowloon City District

The Chief Secretary for Administration, Mr Matthew Cheung Kin-chung, today (August 24) visited Kowloon City District to keep abreast of developments in the Kai Tak Development (KTD) area.

Mr Cheung toured the facilities of the Hong Kong Children's Hospital in the company of the District Officer (Kowloon City), Mr Franco Kwok; the Chairman of the Kowloon City District Council (KCDC), Mr Pun Kwok-wah; the Cluster Chief Executive of Kowloon Central Cluster of the Hospital Authority, Dr Albert Lo; and the Hospital Chief Executive of the Hong Kong Children's Hospital, Dr Lee Tsz-leung. He was pleased to learn that the hospital planned to open in stages from the fourth quarter of this year.

Housed in two 11-storey buildings, the Hong Kong Children's Hospital will provide 468 beds, operating theatres, an ambulatory care centre and a specialist out-patient clinic. It aims to provide diagnosis, treatment and rehabilitation services to children from newborns to 18-year-olds with

relevant clinical needs, and will focus mainly on uncommon, complex and serious paediatric cases requiring multidisciplinary management.

Mr Cheung then went to the hospital podium to have a bird's eye view of the KTD area. Officers from the Civil Engineering and Development Department gave a briefing on the latest developments of the area.

Mr Cheung said that to facilitate the furtherance of the KTD plan, the Government has taken forward the planning, design and construction of various public works and infrastructure projects in stages in light of the growing population and various developments in the area.

He also visited the Co-Sharing Services Centre under the Lok Sin Tong Social Housing Scheme. He was given a tour of summer activities being held at the Centre and talked to participating children.

He then visited a beneficiary family under the Lok Sin Tong Social Housing Scheme to understand the difficulties they faced in their daily lives. Mr Cheung stressed that the current-term Government strives to develop Hong Kong into a caring and compassionate society and will continue to introduce appropriate measures for the underprivileged.

The Lok Sin Tong Community-based Housing Movement Scheme provides rental units to grass-roots families at affordable rent, with an aim to help improve living conditions of families waiting for public housing. The Scheme also provides community support to the tenants such as after-school child care service to ease their pressure and reduce intergenerational poverty.

Mr Cheung then visited a number of streets in the To Kwa Wan area to observe the problems of illegal parking and pedestrian congestion caused by tourists in the vicinity.

He pointed out that the District Officer has set up an inter-departmental group with a view to stepping up co-ordination and enforcement actions against the problems concerned at the district level. The relevant government policy bureau will continue to pay close attention to the use of tourism supporting facilities in all districts and maintain close contact with the tourism industry and relevant stakeholders, with a view to introducing practical measures to address the issue.

Before concluding the visit, Mr Cheung met with KCDC members and exchanged views with them on various issues of concern to the district and the wider community.

Cluster of Respiratory Syncytial Virus cases in Queen Mary Hospital

The following is issued on behalf of the Hospital Authority:

The spokesperson for Queen Mary Hospital made the following announcement today (August 24):

Three patients (one male and two female, aged 7 to 14) of the Haematology, Oncology and Immunology Unit and the Blood and Marrow Transplant Paediatric Ward presented with fever, cough and headache symptoms since August 8. Appropriate viral tests were arranged for the patients and their test results were positive for Respiratory Syncytial Virus. The patients are being treated under isolation and are in a stable condition.

Admission to the ward has been suspended and restricted visiting has been imposed. Infection control measures have already been stepped up according to established guidelines. All other patients in the ward are under close surveillance.

The cases have been reported to the Hospital Authority Head Office and the Centre for Health Protection for necessary follow up.

Appeal for information on missing man in Kwai Chung (with photo)

Police today (August 24) appealed to the public for information on a man who went missing in Kwai Chung.

Tsang Chor-ming, aged 48, went missing after he was last seen in a hotel on Wo Yi Hop Road yesterday (August 23) afternoon. His family made a report to Police on the same day.

He is about 1.78 metres tall, 70 kilograms in weight and of medium build. He has a square face with yellow complexion and short black hair. He was last seen wearing a pair of black-rimmed glasses, a dark short-sleeved shirt, light blue shorts and dark-coloured shoes.

Anyone who knows the whereabouts of the missing man or may have seen him is urged to contact the Regional Missing Person Unit of New Territories South on 3661 1176 or 9689 7445, or email to rmpu-nts-2@police.gov.hk, or contact any police station.
