

Regional Traffic Day of Kowloon West

Police yesterday (July 30) held the Regional Traffic Day in Kowloon West to raise public awareness of road safety through stringent enforcement actions.

A total of 243 officers from Traffic Kowloon West and District Traffic Teams of Kowloon City, Mong Kok, Shum Shui Po and Yau Tsim Districts were deployed to take enforcement actions at traffic black spots in Kowloon West.

The operation resulted in the issue of 1 726 fixed penalty tickets and 128 summonses. Among the fixed penalty tickets and summonses issued, a total of 1 588 fixed penalty tickets were issued for illegal parking and the rest are for other traffic offences.

Police figures revealed that a total of 1 539 traffic accidents involving casualties occurred in Kowloon West in the first six months of 2018, of which 385 cases involved pedestrian injuries.

Police will continue to take regular enforcement actions to ensure road safety.

Import and export declaration charge to be capped at \$200 from tomorrow

The Government's measure to cap the import and export declaration (TDEC) charge at \$200 will take effect from tomorrow (August 1). The cap will apply to goods imported to Hong Kong, or exported or re-exported from Hong Kong, on or after August 1.

Under the above measure, for each TDEC involving goods at a value above \$1.644 million, the TDEC charge will remain at \$200.

The arrangements for the lodgement of TDECs and payment of charges will remain unchanged. For enquiries, please contact the Customs and Excise Department (hotline: 2707 7748, email: customsenquiry@customs.gov.hk), the Census and Statistics Department (hotline: 2877 1818, email: trade-declaration@censtatd.gov.hk) or the three Government-appointed service providers of Government Electronic Trading Services (namely Brio Electronic Commerce Limited, Global e-Trading Services Limited and Tradelink Electronic Commerce Limited, with contact information available at www.cedb.gov.hk/citb/en/Policy_Responsibilities/gets_sp.html).

CHP reminds public on precautions against heat stroke during very hot weather

The Centre for Health Protection (CHP) of the Department of Health (DH) today (July 31) reminded members of the public, particularly those undertaking outdoor activities, to take heed of necessary measures against heat stroke and sunburn in very hot weather.

"The public should carry and drink plenty of water to prevent dehydration while engaging in outdoor activities," a spokesman for the CHP said.

"Those engaged in strenuous outdoor activities should avoid beverages containing caffeine, such as coffee and tea, as well as alcohol, as they speed up water loss through the urinary system," the spokesman explained.

"The obese, the sick, including those with heart disease or high blood pressure, the old and the young are more vulnerable to heat-related illnesses. They should pay special attention," the spokesman added.

The public should adopt the following precautions:

- Wear loose and light-coloured clothing to reduce heat absorption and facilitate sweat evaporation and heat dissipation;
- Avoid vigorous exercise and prolonged activities like hiking or trekking as heat, sweating and exhaustion place additional demands on the physique;
- Perform outdoor activities in the morning or late afternoon;
- For indoor activities, open all windows, use a fan or use air-conditioning to maintain good ventilation; and
- Reschedule work to cooler times of the day.

If working in a hot environment is inevitable, introduce shade in the workplace where practicable, and start work slowly and pick up the pace gradually. Get into a cool area for rest at regular intervals to allow the body to recuperate.

The public should also note the latest and the forecast Ultraviolet (UV) Index released by the Hong Kong Observatory (HKO). When the UV Index remains high (6 or above):

- Minimise direct exposure of the skin and the eyes to sunlight;
- Wear loose long-sleeved clothing made of close-woven fabrics;

- Wear a wide brim hat or use an umbrella;
- Seek a shaded area or put on UV-blocking sunglasses;
- Apply a broad-spectrum sunscreen lotion with a sun protection factor (SPF) of 15 or above. Apply liberally and reapply after swimming or sweating; and
- While using DEET-containing insect repellents for personal protection against mosquito-borne diseases, apply sunscreen first, then insect repellent.

If symptoms develop, such as dizziness, headache, nausea, shortness of breath or confusion, rest and seek help immediately, and seek medical advice as soon as possible.

The public may get more information from the DH's Health Education Hotline (2833 0111), [heat stroke](#) page and [UV radiation](#) page; the HKO's Dial-a-Weather (1878 200), latest [weather and forecast](#), [UV Index](#) and weather information for [hiking and mountaineering](#); and [press releases](#) of the Labour Department on precautions against heat stroke for outdoor workers and their employers when the Very Hot Weather Warning is in force.

[Assess the risk of heat stroke to employees](#)

Attention duty announcers, radio and TV stations:

Please broadcast the following special announcement immediately, and repeat it at frequent intervals when the Very Hot Weather Warning is in force:

The Labour Department reminds employers that as the Very Hot Weather Warning is in force, they should assess the risk of heat stroke to their employees and adopt effective preventive measures such as providing cool drinking water, setting up temporary sunshade and providing mechanical aids to reduce physical exertion of employees. Employees should drink water regularly and be mindful of their physical condition. If early heat stroke symptoms such as headache and thirst appear, they should inform their supervisors and seek medical help immediately.

Very Hot Weather Warning issued

Attention TV/radio announcers:

Please broadcast the following as soon as possible:

The Hong Kong Observatory has issued the Very Hot Weather Warning.

To prevent heat stroke, avoid prolonged activities outdoors.

If engaged in outdoor work or activities, wear a wide-brimmed hat and light-coloured, loose-fitting clothes. Stay in shaded areas as much as possible.

Drink plenty of water, and avoid beverages containing caffeine or alcohol.

If you feel sick, consult a doctor right away.
