

Reading KOL Short Video Competition 2018 extends deadline

To welcome more entries from interested persons, the submission deadline of the Reading KOL Short Video Competition 2018 held by the Hong Kong Public Libraries (HKPL) of the Leisure and Cultural Services Department will be extended two weeks to June 25 (Monday).

With an aim of encouraging members of the public to share the joy of reading and arouse their interest in reading, the competition consists of three categories, namely the primary, secondary and open categories (for all ages). Participants can make use of their creativity to produce and submit a video within two minutes to echo the theme. The entry video may be produced in Cantonese, Putonghua or English, and must be submitted together with a title and a brief description on the concept of the video in not more than 100 words, in Chinese or English.

Entry is on an individual basis. Each participant can only enter the competition in one category. While more than one entry is allowed, each participant will only qualify for one award. The judging criteria include content presentation, creativity, interestingness, use of techniques and positivity.

Each entry category will have one Champion, a First Runner-up, a Second Runner-up and three Merit Awards, and the most viewed finalist entry in each category will be presented with a Most Viewed Award. Cash coupons ranging from \$1,000 to \$8,000 and certificates will be awarded to the winners. To encourage more participation of students, the Most Active Participating School Award will be given out in the primary and secondary categories. All winners and winning schools will be notified by post in July.

The competition is supported by the Education Bureau with Sing Tao Daily and Smart Parents as media partners. It is part of a series of vibrant activities organised by the HKPL in support of a reading-for-all campaign themed "Discover and Share the Joy of Reading" launched by the Government earlier. For details of the competition, please visit www.hkpl.gov.hk/en/extension-activities/page/133096/reading-kol or call 2798 2870.

HAD to open temporary night heat shelters

The Home Affairs Department will open 15 temporary night heat shelters

tonight (June 11) for people in need of the service.

The shelters will be open from 10.30pm until 8am tomorrow.

For further information, please call the department's enquiry hotline before midnight on 2835 1473.

The 15 temporary night heat shelters are located at:

Hong Kong Districts:

Central and Western –
Sai Ying Pun Community Complex Community Hall
3/F, Sai Ying Pun Community Complex,
2 High Street, Sai Ying Pun

[Application for list of establishments from Central Register of Establishments](#)

The Census and Statistics Department maintains a computerised Central Register of Establishments which contains information relating to some 410 000 active establishments in Hong Kong. Information kept in the Register is updated on a quarterly basis through feedback from various surveys of the department and administrative returns from relevant government departments. Information in respect of the first quarter of 2018 is now updated in the Register.

The Register serves mainly as the sampling frame for various economic surveys conducted by the department. In addition, many other government departments and private organisations also make use of the disclosable particulars kept in the Register for their surveys, publicity, business promotion, customer classification and research work. These disclosable particulars cover the name, address, type of business and employment size class of the establishments. They are available to the public in the following two forms.

20% sample listing

A sample listing containing 20% of the records randomly selected from the Register, together with disclosable particulars of the establishments, is available to users. Users may apply for all or part of the records in the 20% sample listing in writing by providing the following information:

- * Particulars of the applicant (including name, position, organisation, address, telephone, fax and email);
- * Details of the project (including name, purpose, expected completion date, and specifications of information required such as industries, employment sizes and districts); and
- * Medium of delivering the information (e.g. photocopy or CD-R and file format such as Visual FoxPro, Excel or text, if applicable).

The application can be faxed to 2827 2296, emailed to cre@censtatd.gov.hk or posted to the Employment Statistics and Central Register of Establishments Section, Census and Statistics Department, 20/F, Wanchai Tower, 12 Harbour Road, Wan Chai, Hong Kong.

The information can be supplied in the form of CD-R or photocopies at the following rates:

- * CD-R – a charge of about \$1,540 per listing, compiled to the user's requirements (exact amount depending on the complexity of the job concerned);
- * Photocopies – a ready, standard listing is available for photocopying (in part if desired). A charge of \$1.20 per page is levied.

Matching operation with specified establishments

Users may apply to conduct matching operations for a list of establishments in their databases and then extract disclosable particulars for the matched establishments from the Register. The matching operation will be done using the application program supplied by the user and conducted on the computing facilities in the Department. Both the name and address of establishment will be used as matching keys.

Users may apply for this service item by submitting a proposal of the matching operation to the department. The proposal should cover the intended use of the information derived from the matching operation, the specifications of the establishment database provided by the user, the details of the matching process and the specifications of the output data.

The information can be supplied in the form of CD-R. A charge will be levied at the following rates:

- * a minimum charge of about \$4,800 for the service required (exact amount depending on the complexity of the matching operation conducted); plus
- * \$1 per matched record with information supplied to the user.

Enquiries

Further details about the above service items can be obtained from the

CHP closely monitors global situation of measles outbreaks

The Centre for Health Protection (CHP) of the Department of Health (DH) today (June 11) reported that the outbreak of measles in Okinawa, Japan since late-March is under control and reminded members of the public to undertake continuous vigilance against measles when travelling to other places with high incidence or outbreak of measles.

According to the information from the Government of Okinawa Prefecture, there was an outbreak of measles involving a total of 99 confirmed cases with the index case confirmed on March 20. The last patient in Okinawa did not have any exposure in the community after May 15. Since then, there has been no new case for four weeks, and the Government of Okinawa Prefecture has announced the end of this outbreak of measles.

Meanwhile, measles remain as an endemic infection in many places around the world. In southeast Asia, according to data from the World Health Organization, as of May 11, the 12-month measles incidence (number of cases per million population) has reached 76.9, 61.1, 26.7 and 25.2 in Malaysia, the Philippines, Indonesia and Thailand respectively. In Europe, there were marked increases in measles cases in recent months, with the highest 12-month incidence (number of cases per million population) in Greece (255.6), Romania (108.3), Italy (66.6) and France (36.4).

"Vaccination is the most effective way to prevent measles. As the summer vacation is approaching, members of the public who are planning to travel to places with high incidence or outbreak of measles should review their vaccination history and past medical history, especially non-local born people who might not have received measles vaccination during childhood. Information on the history of measles vaccination in Hong Kong is available from the CHP's [measles page](#).

"For those who had received two doses of measles-containing vaccine or confirmed to have measles infection in the past are considered to be immune to measles," a spokesman for the CHP said.

For those with incomplete vaccination, unknown vaccination history or unknown immunity against measles, they are urged to consult their doctor for advice on measles vaccination at least two weeks before departure, as it takes about two weeks after vaccination for antibodies to develop and provide protection against measles.

Pregnant women and women preparing for pregnancy who are non-immune to measles as well as children aged under one year who are not due for the first dose of Measles, Mumps and Rubella (MMR) combined vaccine under the [Hong Kong Childhood Immunisation Programme](#), are advised not to travel to places with outbreaks of measles.

"If travellers returning from places with high incidence or outbreak of measles develop symptoms of measles (e.g. fever and rash), they should seek medical advice immediately and avoid contact with non-immune persons, especially pregnant women and infants. They should also report their symptoms and prior travel history to the healthcare workers so that appropriate infection control measures can be implemented at the healthcare facilities to prevent any potential spread," the spokesman appealed.

For outbreak news of measles or the latest travel health advice, please visit the website of DH's [Travel Health Service](#). For more information on measles, the public may call the 24-hour health education hotline 2833 0111 or visit the CHP's [measles page](#).
