Fresh beef sample found to contain sulphur dioxide

The Centre for Food Safety (CFS) of the Food and Environmental Hygiene Department announced today (May 14) that a fresh beef sample was found to contain sulphur dioxide, a preservative which is not permitted to be used in fresh meat. The CFS is following up on the case.

A spokesman for the CFS said, "Subsequent to announcing earlier that a fresh beef sample taken from a fresh provision shop in Sham Shui Po was detected with sulphur dioxide, the CFS took another fresh beef sample from the same shop for testing during follow-up investigation. A similar irregularity was detected with the test result showing that the sample contained sulphur dioxide at a level of 560 parts per million."

According to the Preservatives in Food Regulation (Cap 132BD), it is an offence to add sulphur dioxide to fresh or chilled meat. The maximum penalty is a \$50,000 fine and six months' imprisonment.

Prosecution will be instituted should there be sufficient evidence.

Sulphur dioxide is a commonly used preservative in a variety of foods including dried fruits, pickled vegetables and meat products such as sausages and grilled burgers, but under the Regulation it is not permitted in fresh or chilled meat. Nonetheless, individual meat traders have been found illegally using sulphur dioxide to make meat look fresher. This preservative is of low toxicity. As it is water soluble, most of it can be removed through washing and cooking. However, susceptible individuals who are allergic to this preservative may experience breathing difficulties, headache and nausea.

The spokesman reminded the food trade to comply with the law and not to sell fresh or chilled meat adulterated with sulphur dioxide. Members of the public should purchase meat from reliable market stalls or fresh provision shops. They should avoid buying or consuming meat which is unnaturally red and maintain a balanced diet to avoid malnutrition or excessive exposure to chemicals from a small range of food items.

The CFS will continue to follow up on the case and take appropriate action.

SCMA to visit Guangzhou

The Secretary for Constitutional and Mainland Affairs, Mr Patrick Nip,

will accompany the Chief Executive to visit Guangzhou from the afternoon of May 16 to May 17.

Mr Nip will return to Hong Kong in the afternoon of May 17. During his absence, the Under Secretary for Constitutional and Mainland Affairs, Mr Andy Chan, will be the Acting Secretary for Constitutional and Mainland Affairs.

SED commends Qualifications Framework partners (with photos)

The Secretary for Education, Mr Kevin Yeung, today (May 14) officiated at the Qualifications Framework (QF) Partnerships Commendation Ceremony cum QF 10th Anniversary Celebration (Ceremony), and presented certificates of commendation to over 200 organisations including enterprises, industry-related trade associations and unions, professional bodies and Government departments for their support and contributions to the QF.

In his speech, Mr Yeung said the Government had so far set up 22 Industry Training Advisory Committees, covering over half of the total labour force in Hong Kong. The Government has also launched a series of support schemes under the QF Fund, which have subsidised education and training providers for the accreditation of over 4 800 training courses to become QF-recognised. There are now more than 8 200 QF-recognised academic and vocational qualifications listed on the Qualifications Register for selection by learners.

He said that the QF is a clear and objective cross-sectoral qualifications platform to promote vocational and professional education and training (VPET) and provide quality, flexible and diversified study pathways with multiple entry and exit points for youngsters. This year, the Government has not only injected \$1.2 billion into the QF Fund for the continued implementation of various initiatives under the QF, but also established the Task Force on Promotion of VPET last month, which comprises representatives of schools, parents and employers as well as community and labour sectors, to further promote VPET.

Mr Yeung expressed his heartfelt appreciation to the commended organisations for their active participation and support in the development of the QF over the past 10 years since its launch in 2008, which contributed to encouraging outcomes.

Employers commended today have made good use of the tools and supporting mechanisms of the QF in at least one of the following areas to enhance their manpower quality: (i) development of quality-assured Specifications of Competency Standards (SCS)-based courses, which suit the needs of the

industries for enhancing skills of their employees; (ii) establishment of the Credit Accumulation and Transfer (CAT) arrangement to provide more flexible learning opportunities; (iii) encouragement of their employees to apply for Recognition of Prior Learning qualifications to have their experience recognised under the QF; and (iv) use of QF-recognised qualifications in human resources development and management perspectives to enhance competitiveness of the enterprises for their long-term development.

Education and training providers commended have developed SCS-based courses or Specifications of Generic (Foundation) Competencies-based courses, or set up the CAT arrangement to provide more and flexible learning opportunities for learners.

Enterprises, trade associations, trade unions and professional bodies that have actively promoted the QF also received commendation today for their contributions to the implementation of the QF.

Government departments and public organisations were commended for their application and promotion of the QF at various levels. This not only enhances the manpower quality of the departments and organisations, but also raises public awareness of QF and fosters the culture of lifelong learning in Hong Kong.

Looking ahead to the next 10 years, Mr Yeung said he wished that the commended organisations would continue to be the long-term partners of the QF, and collaborate to further strengthen application of the QF as well as promote lifelong learning and manpower development for the betterment of society.

<u>Analytical Accounts of the Exchange</u> Fund

The following is issued on behalf of the Hong Kong Monetary Authority:

The Hong Kong Monetary Authority (HKMA) released today (May 14) the key analytical accounts of the Exchange Fund at the end of April 2018.

Foreign assets, representing the external assets of the Exchange Fund, decreased during the month by HK\$39.4 billion to HK\$3,558.6 billion.

The Monetary Base, comprising Certificates of Indebtedness, Government‑issued currency notes and coins in circulation, the balance of the banking system and Exchange Fund Bills and Notes issued, amounted to HK\$1,670.6 billion.

Claims on the private sector in Hong Kong amounted to HK\$230.5 billion.

Foreign liabilities, representing fees payable to the Exchange Fund's external managers, amounted to HK\$0.4 billion.

The analytical accounts of the Exchange Fund are released in accordance with the International Monetary Fund's Special Data Dissemination Standard (SDDS) and are referred to as the Analytical Accounts of the Central Bank under SDDS (Annex).

At present, four press releases relating to the Exchange Fund's data are issued by the HKMA each month. Three of these releases are issued to disseminate monetary data in accordance with the International Monetary Fund's Special Data Dissemination Standard (SDDS). The fourth press release, on the Exchange Fund's Abridged Balance Sheet and Currency Board Account, is made in accordance with the HKMA's policy of maintaining a high level of transparency. For the month of May 2018, the scheduled dates for issuing the press releases are as follows:

May 7 (Issued)	SDDS International Reserves (Hong Kong's Latest Foreign Currency Reserve Assets Figures)
May 14	SDDS Analytical Accounts of the Central Bank (Analytical Accounts of the Exchange Fund)
May 31	SDDS Template on International Reserves and Foreign Currency Liquidity
May 31	Exchange Fund Abridged Balance Sheet and Currency Board Account

Statistics Advisory Board discusses developments of official statistics work

The Statistics Advisory Board held a meeting today (May 14) to discuss official statistics work and its recent developments.

Members noted that the Census and Statistics Department (C&SD) would

conduct a new round of Household Expenditure Survey (HES) during the period from October 2019 to September 2020 to collect up-to-date information on the expenditure patterns of households in Hong Kong.

The Commissioner for Census and Statistics and Chairman of the Statistics Advisory Board, Mr Leslie Tang, said, "The HES is conducted once every five years and the results will mainly be used for updating the expenditure weights of consumer goods and services used for compiling the Consumer Price Indices. Preparatory work for the new round of survey has already commenced and the major results will be released in the second quarter of 2021."

Members also noted that the preparatory work for the 2021 Population Census (21C) had started. The data collection approach for the 21C, including various aspects relating to the data collection modes, manpower deployment and publicity programmes, was discussed at the meeting.

Furthermore, the Board noted the major statistical developments depicted in the 2018 Edition of An Outline of Statistical Development which was published on April 25, 2018.

The Statistics Advisory Board is a non-statutory advisory body which advises the Commissioner for Census and Statistics on matters pertaining to government statistical work. Its membership consists of established professionals of the business sector, academia and the community, which provides for wide representation to assist the Commissioner in integrating views of data users, data suppliers and statisticians. The terms of reference and composition of the Board can be found on the C&SD website (www.censtatd.gov.hk/about_us/our_advisory_board/index.jsp).
