

Members of public to select Best Home Affairs Enquiry Centre

The Home Affairs Department (HAD) will invite members of the public who visit the 20 Home Affairs Enquiry Centres (HAECs) between July 15 and August 9 to assess the service standard of the HAEC, with a view to selecting the Best HAEC.

A spokesman for the HAD today (July 8) said, "HAECs serve as a bridge between the department and members of the public. By holding this annual activity, the department would like to give recognition to frontline staff who excel in the delivery of public enquiry service and encourage them to serve the community in a professional manner. Through our excellent frontline staff, the service standard of HAECs could be further upgraded."

Members of the public participating in the activity will be invited to rate various key aspects of the performance of the HAEC. Awards will be determined by the scores awarded by the public.

A total of eight awards will be presented. Selection results will be announced through the [department's website](#).

LD reminds employers and employees to take heat stroke preventive measures in times of Heat Stress at Work Warning

As the Heat Stress at Work Warning is now in effect, the Labour Department (LD) reminds employers and employees to take appropriate measures during the effective period of the warning to prevent heat stroke when working in hot weather or hot environments.

Employees who work outdoors or in non-air-conditioned indoor environments face high levels of heat stress and are at a relatively higher risk of heat stroke. Employers should assess the risk factors of heat stress for employees at work and, based on the identified risk factors, take necessary preventive and control measures, including rescheduling work periods, setting up shading covers, providing ventilation and heat dissipation equipment, and reminding employees to replenish water and rest in a timely manner.

The Heat Stress at Work Warning is formulated by the LD based on the Hong Kong Heat Index. There are three levels of the warning: Amber, Red and Black, which help employers and employees better understand the level of heat stress while working outdoors or indoors without air-conditioning systems.

A spokesman for the LD said that when the department issues the Heat Stress at Work Warning, employers must refer to the criteria and recommendations provided in the "[Guidance Notes on Prevention of Heat Stroke at Work](#)" to conduct risk assessments, according to the workloads and other relevant heat stress risk factors, for employees who work outdoors or in non-air-conditioned indoor workplaces. Appropriate rest breaks should be arranged every hour, as far as reasonably practicable, based on various levels of the Heat Stress at Work Warning, to reduce employees' risk of heat stroke.

Employees must also follow instructions to rest on time. Whenever there are any symptoms of heat-related illnesses, such as headache, dizziness, thirst, and nausea, they should rest in a cool and shady place, drink water, and inform employers/supervisors to take appropriate action immediately.

The LD issued the "Guidance Notes on Prevention of Heat Stroke at Work", detailing the various risk factors that should be considered when conducting heat stress risk assessments and recommending corresponding control measures for identified risk factors for employers' and employees' reference. For the Heat Stress at Work Warning and related guidelines, please refer to the department's thematic webpage:

www.labour.gov.hk/eng/news/prevention_of_heat_stroke_at_work.htm.

Kowloon East Cluster Mona Fong General Out-patient Clinic services affected

The following is issued on behalf of the Hospital Authority:

The spokesperson for Kowloon East Cluster made the following announcement today (July 8):

Due to water mains leakage, Mona Fong General Out-patient Clinic (GOPC) in Sai Kung is unable to provide services in the morning. Emergency repairs and cleaning are currently underway.

Clinic staff is contacting patients affected to arrange their appointments in Tseung Kwan O Jockey Club GOPC or Tseung Kwan O (Po Ning Road) GOPC.

Patients can call 2792 2601 for enquiries if necessary.

[Person in custody commits suicide by hanging at Stanley Prison](#)

A 32-year-old male person in custody at Stanley Prison committed suicide by hanging yesterday (July 7).

At 8.44pm yesterday, a correctional officer found that the person in custody had committed suicide by hanging with a bedsheet tied to the window grille bars of his cell. The officer immediately called for reinforcement to provide first-aid treatment and called for an ambulance to send the person in custody to a public hospital for rescue. He was subsequently certified dead at 10.06pm.

The Correctional Services Department has reported the case to the Police. A death inquest will be held by the Coroner's Court.

The deceased was convicted for the offence of murder in February 2023.

[CHP reminds public on precautions against heat stroke during very hot weather](#)

The Centre for Health Protection (CHP) of the Department of Health (DH) today (July 8) reminded members of the public, particularly those undertaking outdoor activities, to take heed of necessary measures against heat stroke and sunburn in very hot weather.

"The public should carry and drink plenty of water to prevent dehydration while engaging in outdoor activities," a spokesman for the CHP said.

"Those engaged in strenuous outdoor activities should avoid beverages containing caffeine, such as coffee and tea, as well as alcohol, as they speed up water loss through the urinary system," the spokesman explained.

"Infants and children, the elderly, pregnant women, those with chronic illnesses such as heart disease or high blood pressure, outdoor/manual workers, and individuals who are overweight are more vulnerable to heat stroke. They should pay special attention," the spokesman added.

The public should adopt the following precautions:

- Wear loose and light-coloured clothing to reduce heat absorption and facilitate sweat evaporation and heat dissipation;
- Avoid vigorous exercise and prolonged activities like hiking or trekking as heat, sweating and exhaustion can place additional demands on the physique;
- Perform outdoor activities in the morning or the late afternoon, if possible;
- For indoor activities, open all windows, use a fan or use air-conditioning to maintain good ventilation;
- Do not stay inside a parked vehicle; and
- Reschedule work to cooler times of the day if feasible. If working in a hot environment is inevitable, introduce shade in the workplace where practicable. Start work slowly and pick up the pace gradually. Move to a cool area for rest at regular intervals to allow the body to recuperate.

â€‹The public should also note the latest and the forecast Ultraviolet (UV) Index released by the Hong Kong Observatory (HKO). When the UV Index is high (6 or above):

- Minimise direct exposure of the skin and the eyes to sunlight;
- Wear long-sleeved and loose-fitting clothes;
- Wear a wide-brimmed hat or use an umbrella;
- Seek a shaded area or put on UV-blocking sunglasses;
- Apply a broad-spectrum sunscreen lotion with a minimum sun protection factor (SPF) of 15, preferably higher. Reapply every two hours if you stay out in the sun, and after swimming, sweating or towelling off; and
- While using DEET-containing insect repellents for personal protection against mosquito-borne diseases, apply sunscreen first, then insect repellent.

â€‹If symptoms develop, such as dizziness, headache, nausea, shortness of breath or confusion, rest and seek help immediately, and seek medical advice as soon as possible.

â€‹The public may obtain more information from the DH's Health Education Infoline (2833 0111), [heat stroke](#) page and [UV radiation](#) page; the HKO's Dial-a-Weather (1878 200), latest [weather report and forecast](#), [UV Index](#) and weather information for [hiking and mountaineering](#); and [press releases](#) of the Labour Department on precautions against heat stroke for outdoor workers and their employers when the Very Hot Weather Warning is in force.
