

Tenders invited for licence of fee-paying public car park

The Government Property Agency is inviting tenders for a three-year licence of a fee-paying public car park on portions of Basement Two and a portion of Basement One of Chai Wan Municipal Services Building at 338 Chai Wan Road, Chai Wan, Hong Kong.

The premises should be used for the purpose of a fee-paying public car park for the parking of private cars and motorcycles only.

The tender notice was uploaded today (August 2) to the Agency's website: www.gpa.gov.hk. Tender documents are available for collection at the Government Property Agency, 9/F, South Tower, West Kowloon Government Offices, 11 Hoi Ting Road, Yau Ma Tei, Kowloon, during the period from 9am to 6pm from Monday to Friday, except public holidays. The documents can also be downloaded from the Agency's website.

Interested tenderers who wish to attend a site inspection should make a prior appointment with the Government Property Agency by calling 3842 6775 on or before August 15.

Tenderers must submit their tenders by placing them in the Government Logistics Department Tender Box situated on the Ground Floor, North Point Government Offices, 333 Java Road, North Point, Hong Kong, before noon on August 24. Late tenders will not be accepted.

Government finishes exercise on “restriction-testing declaration” in respect of specified “restricted area” in Kwan Ming House, Yuk Ming Court, Tseung Kwan O, and enforcement operation for breaches of compulsory testing notice

The Government yesterday (August 1) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons)

Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 5pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tseung Kwan O (i.e. Kwan Ming House, Yuk Ming Court, Tseung Kwan O, excluding the non-domestic units on G/F) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing were required to stay in their premises until all such persons identified in the "restricted area" had undergone testing and the test results were mostly ascertained.

Moreover, the Government issued a compulsory testing notice yesterday, requiring persons who had been present at the above building for more than two hours from July 26 to August 1, 2022, even if they were not present in the "restricted area" at the time when the declaration took effect, to undergo compulsory testing on or before August 3, 2022. The Government announced the completion of the compulsory testing exercise at around 8.15am today (August 2) and carried out enforcement action in the "restricted area" afterwards to verify that all people in the "restricted area" had undergone compulsory testing in accordance with the requirements of the relevant declaration and compulsory testing notice. The Government announced that the enforcement operation ended at around 10am today.

Staff from the Environment and Ecology Bureau, the Environmental Protection Department, the Home Affairs Department (including the Sai Kung District Office), the Hong Kong Police Force, the Food and Environmental Hygiene Department and the Department of Health took part in this exercise to arrange for implementation of the declaration and enforcement actions for breaches of the compulsory testing notice issued earlier.

The Government provided food packs for persons subject to compulsory testing to facilitate their meal arrangements. Anti-epidemic proprietary Chinese medicines donated by the Central People's Government or procured with the co-ordination of the Central People's Government and rapid test kits were also distributed to persons subject to compulsory testing to help them fight against the virus.

ã€€

The Government thanks persons subject to compulsory testing for their support and understanding. With everyone's co-operation and efforts, coupled with the efforts of the testing contractors throughout the night, residents have been informed about their testing results by SMS notification. After finishing the compulsory testing exercise at around 8.15am today, the Government took enforcement action in the "restricted area" immediately to verify that all people in the "restricted area" had undergone testing according to the requirements of the declaration and the compulsory testing notice. Persons who could present an SMS notification containing a negative testing result or wore a wristband as proof of having undergone the compulsory testing could leave the "restricted area" through the designated exit after providing personal information to a prescribed officer. The enforcement operation was completed at around 10am. Test records of around 570 persons subject to compulsory testing were checked. Nine persons were found not having undergone compulsory testing and compulsory testing orders

were issued to them. Taking into account the above situation, the Secretary for Health revoked the "restriction-testing declaration" in accordance with Cap. 599J (see attachment).

The Government reminds the 79 households who have not answered the door to undergo a nucleic acid test as soon as possible after reading the notices put up by the Government, in the hope of eliminating the possible risk of further spread of the virus in the community.

The Government thanks all participating government staff and the testing agencies for their hard work. The Government is also grateful to those subject to compulsory testing for their support and understanding, and their full co-operation during this period in undergoing testing and waiting for the results at home.

The Government will seriously follow up on the compliance situation of the compulsory testing notices and the "restriction-testing declaration" by persons subject to compulsory testing. Any person who fails to comply with the compulsory testing notices commits an offence and may be liable to a fixed penalty of \$10,000. The person will also be issued with a compulsory testing order, requiring him or her to undergo testing within a specified time frame. Failure to comply with the order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 5 (\$50,000) and imprisonment for six months.

Government enforces "restriction-testing declaration" and compulsory testing notice in respect of specified "restricted area" in Kwan Ming House, Yuk Ming Court, Tseung Kwan O

â€‹The Government yesterday (August 1) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 5pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tseung Kwan O (i.e. Kwan Ming House, Yuk Ming Court, Tseung Kwan O, excluding the non-domestic units on G/F) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained.

In addition, the Government issued a compulsory testing notice yesterday to any person who had been present at the above building for more than two hours from July 26 to August 1, 2022 to undergo compulsory testing on or before August 3, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 8.15am today (August 2) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 8.15am today, persons in the specified "restricted area" in Tseung Kwan O who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 11pm yesterday. Around 1 450 people within the area had undergone testing, among which 17 cases tested positive and 5 cases tested indeterminate were found. The Centre for Health Protection of the Department of Health will arrange to follow up.

Regarding cases tested positive in the specified "restricted area", the Government has provided additional food packs, health advice for persons tested positive pending admission to hospitals or isolation facilities, disinfection products and surgical masks to these persons and their household members pending follow-up arrangement.

Moreover, the Government also assigned staff to visit around 610 households within the "restricted area", among which 79 households did not answer the door. The Government will take measures to follow up.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$10,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 5 (\$50,000) and imprisonment for six months.

CHP reminds public on precautions against heat stroke during very hot weather

The Centre for Health Protection (CHP) of the Department of Health (DH) today (August 2) reminded members of the public, particularly those undertaking outdoor activities, to take heed of necessary measures against heat stroke and sunburn in very hot weather.

"The public should carry and drink plenty of water to prevent dehydration while engaging in outdoor activities," a spokesman for the CHP said.

"Those engaged in strenuous outdoor activities should avoid beverages containing caffeine, such as coffee and tea, as well as alcohol, as they speed up water loss through the urinary system," the spokesman explained.

"Children, the elderly, the obese and those with chronic illnesses, such as heart disease or high blood pressure, are more vulnerable to heat stroke. They should pay special attention," the spokesman added.

The public should adopt the following precautions:

- Wear loose and light-coloured clothing to reduce heat absorption and facilitate sweat evaporation and heat dissipation;
- Avoid vigorous exercise and prolonged activities like hiking or trekking as heat, sweating and exhaustion can place additional demands on the physique;
- Perform outdoor activities in the morning or the late afternoon;
- For indoor activities, open all windows, use a fan or use air-conditioning to maintain good ventilation;
- Do not stay inside a parked vehicle; and
- Reschedule work to cooler times of the day. If working in a hot environment is inevitable, introduce shade in the workplace where practicable. Start work slowly and pick up the pace gradually. Move to a cool area for rest at regular intervals to allow the body to recuperate.

The public should also note the latest and the forecast Ultraviolet (UV) Index released by the Hong Kong Observatory (HKO). When the UV Index is high (6 or above):

- Minimise direct exposure of the skin and the eyes to sunlight;
- Wear long-sleeved and loose-fitting clothes;
- Wear a wide-brimmed hat or use an umbrella;
- Seek a shaded area or put on UV-blocking sunglasses;
- Apply a broad-spectrum sunscreen lotion with a sun protection factor

(SPF) of 15 or above. Apply liberally and reapply after swimming, sweating or towelling off; and

- While using DEET-containing insect repellents for personal protection against mosquito-borne diseases, apply sunscreen first, then insect repellent.

If symptoms develop, such as dizziness, headache, nausea, shortness of breath or confusion, rest and seek help immediately, and seek medical advice as soon as possible.

The public may obtain more information from the DH's Health Education Infoline (2833 0111), [heat stroke](#) page and [UV radiation](#) page; the HKO's Dial-a-Weather (1878 200), latest [weather report and forecast](#), [UV Index](#) and weather information for [hiking and mountaineering](#); and [press releases](#) of the Labour Department on precautions against heat stroke for outdoor workers and their employers when the Very Hot Weather Warning is in force.

[Assess the risk of heat stroke to employees](#)

Attention duty announcers, radio and TV stations:

Please broadcast the following special announcement immediately, and repeat it at frequent intervals when the Very Hot Weather Warning is in force:

The Labour Department reminds employers that as the Very Hot Weather Warning is in force, they should assess the risk of heat stroke to their employees and adopt effective preventive measures such as providing cool drinking water, setting up temporary sunshade, providing mechanical aids to reduce physical exertion of employees and providing for employees as far as practicable covered space with good ventilation for rest and meals. Employees should drink water regularly and be mindful of their physical condition. If early heat stroke symptoms such as headache and thirst appear, they should rest in a cool or shady place and drink water immediately. They should also inform their supervisors to take appropriate action.
