

Government finishes exercise on “restriction-testing declaration” in respect of specified “restricted area” in Tung Tai House, Ching Tai Court, Tsing Yi, and enforcement operation for breaches of compulsory testing notice

The Government yesterday (July 26) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 4.30pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tsing Yi (i.e. Tung Tai House, Ching Tai Court, Tsing Yi) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing were required to stay in their premises until all such persons identified in the "restricted area" had undergone testing and the test results were mostly ascertained. All persons in the "restricted area" who have tested positive in the past 14 days, including positive cases identified either by nucleic acid tests recorded by the Department of Health (DH) or by rapid antigen tests that have been self-declared to the DH, were not required to undergo testing in this compulsory testing exercise.

Moreover, the Government issued a compulsory testing notice yesterday, requiring persons, other than those specified above, who had been present at the above building for more than two hours from July 20 to July 26, 2022, even if they were not present in the "restricted area" at the time when the declaration took effect, to undergo compulsory testing on or before July 28, 2022.

The Government announced the completion of the compulsory testing exercise at around 7.30am today (July 27) and carried out enforcement action in the "restricted area" afterwards to verify that all people in the "restricted area" had undergone compulsory testing in accordance with the requirements of the relevant declaration and compulsory testing notice. The Government announced that the enforcement operation ended at around 9.30am today.

Staff taking part in this exercise to arrange for implementation of the relevant declaration and enforcement actions for breaches of the compulsory testing notice issued on July 26, 2022, mainly came from the Civil Service Bureau (CSB).

The Government provided food packs for persons subject to compulsory testing to facilitate their meal arrangements. Anti-epidemic proprietary Chinese medicines donated by the Central People's Government or procured with the co-ordination of the Central People's Government and rapid antigen test kits were also distributed to persons subject to compulsory testing to help them fight the virus. The CSB also set up a hotline for people restricted by the declaration to make enquiries and seek assistance.

The Government is thankful to persons subject to compulsory testing for their support and understanding. With everyone's co-operation and efforts, coupled with the efforts of the testing contractors throughout the night, residents have been informed about their testing results by SMS notification. After finishing the compulsory testing exercise at around 7.30am today, the Government took enforcement action in the "restricted area" immediately to verify that all people in the "restricted area" had undergone testing according to the requirements of the declaration and the compulsory testing notice. Persons who could present an SMS notification containing a negative testing result as proof of having undergone the compulsory testing could leave the "restricted area" through the designated exit after providing personal information to a prescribed officer. The enforcement operation was completed at around 9.30am. Test records of 303 persons subject to compulsory testing were checked. No person was found not having undergone compulsory testing. Taking into account the above situation, the Secretary for Health revoked the "restriction-testing declaration" in accordance with Cap. 599J (see attachment).

The Government reminds the 69 households who have not answered the door to undergo a nucleic acid test as soon as possible after reading the notices put up by the Government, in the hope of eliminating the possible risk of further spread of the virus in the community.

The Government thanks all participating government staff and the testing agencies for their hard work. The Government also expresses gratitude to those subject to compulsory testing again for their support and understanding, and their full co-operation during this period in undergoing testing and waiting for the results at home.

The Government will seriously follow up on the compliance situation of the compulsory testing notices and the "restriction-testing declaration" by persons subject to compulsory testing. Any person who fails to comply with the compulsory testing notices commits an offence and may be liable to a fixed penalty of \$10,000. The person will also be issued with a compulsory testing order, requiring him or her to undergo testing within a specified time frame. Failure to comply with the order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 5 (\$50,000) and imprisonment for six months.

Government announces latest situation of fresh food supply from Mainland

A Government spokesman announced today (July 27) that the supply of fresh food from the Mainland yesterday (July 26) was sufficient and stable.

According to the latest information, the quantity of vegetables supplied from the Mainland to Hong Kong yesterday (as of midnight) by land and water transportation was over 2 600 tonnes, comparable to the average daily supply from the Mainland on a normal day. The volume of vegetables sold through the wholesale markets of the Agriculture, Fisheries and Conservation Department (AFCD) and the Vegetable Marketing Organization was about 872 tonnes. The average wholesale prices of choi sum and pak choi stood at \$8.20 and \$6.00 per catty respectively yesterday. The supply of eggs to the wholesale market remained steady, with the average daily supply standing at about 3.5 million for the past week, comparable to the average daily supply on a normal day last year.

The total supply of chilled meat from the Mainland yesterday was about 42 tonnes. The supply of live pigs was plentiful.

The supply of chilled poultry from the Mainland was about 150 000 head yesterday, and about 10 000 live chickens were slaughtered locally. The supply was abundant.

Regarding the rice supply, in compliance with the requirement by the Government, stockholders of rice have to maintain the reserve stock of rice at a level sufficient for consumption by the local population for 15 days. The trade generally stocks double the required amount, which is sufficient for one month's consumption by Hong Kong citizens. In recent years, the import and consumption of rice in Hong Kong has stood at a steady level of around 320 000 to 330 000 tonnes per year. The import quantity (including reserve stock) as of end-June 2022 was 30 400 tonnes. Suppliers also maintain a reserve for food that can be stored, such as frozen meat, for around three months' stock generally.

The Government will continue to maintain close liaison with the Mainland authorities and major food suppliers to ensure a stable food supply.

The AFCD updates and publishes the fresh food supply information daily. Members of the public may visit the AFCD website for updates on daily supplies and wholesale prices of fresh food (www.afcd.gov.hk/english/agriculture/agr_fresh/agr_fresh.html).

LD organises online exhibition on Employment Ordinance and Minimum Wage Ordinance

The Labour Department (LD) has launched a two-day online exhibition from 9am today (July 27) to 6pm tomorrow (July 28) on the LD's website disseminating information about the Employment Ordinance and the Minimum Wage Ordinance to enhance the public's understanding of employment rights and benefits.

Consolidating the content of physical exhibitions held by the LD, the online exhibition features the main provisions of the Employment Ordinance and the Minimum Wage Ordinance, employment rights and benefits for foreign domestic helpers, as well as good human resource management measures. The relevant hyperlink is www.labour.gov.hk/Online_exhibition_EO_MW0/index_en.html.

Government enforces "restriction-testing declaration" and compulsory testing notice in respect of specified "restricted area" in Tung Tai House, Ching Tai Court, Tsing Yi

The Government yesterday (July 26) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 4.30pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tsing Yi (i.e. Tung Tai House, Ching Tai Court, Tsing Yi) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained. All persons in the "restricted area" who have tested positive in the past 14 days, including positive cases identified either by nucleic acid tests recorded by the Department of Health (DH) or by rapid antigen tests that have been self-declared to the DH, were not required to undergo testing in this compulsory testing exercise.

In addition, the Government issued a compulsory testing notice yesterday, requiring persons, other than those specified above, who had been present at the above building for more than two hours from July 20 to July 26, 2022, to undergo compulsory testing on or before July 28, 2022, even if they were not present in the "restricted area" at the time when the declaration took effect.

The Government finished the compulsory testing exercise at around 7.30am today (July 27) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7.30am today, persons in the specified "restricted area" in Tsing Yi who have undergone testing and are able to present SMS notifications with negative test results as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 11pm yesterday. A total of 726 people within the "restricted area" had undergone testing, among which two cases tested positive were found. The Centre for Health Protection of the DH will arrange to follow up.

Regarding cases tested positive in the specified "restricted area", the Government has provided additional food packs, health advice, disinfection products and surgical masks, etc, to these persons and their household members pending follow-up arrangement.

Moreover, the Government also assigned staff to visit 320 households within the "restricted area", among which 69 households did not answer the door. The Government will take measures to follow up.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$10,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 5 (\$50,000) and imprisonment for six months.

CHP reminds public on precautions against heat stroke during very hot weather

The Centre for Health Protection (CHP) of the Department of Health (DH) today (July 27) reminded members of the public, particularly those undertaking outdoor activities, to take heed of necessary measures against heat stroke and sunburn in very hot weather.

"The public should carry and drink plenty of water to prevent dehydration while engaging in outdoor activities," a spokesman for the CHP said.

"Those engaged in strenuous outdoor activities should avoid beverages containing caffeine, such as coffee and tea, as well as alcohol, as they speed up water loss through the urinary system," the spokesman explained.

"Children, the elderly, the obese and those with chronic illnesses, such as heart disease or high blood pressure, are more vulnerable to heat stroke. They should pay special attention," the spokesman added.

The public should adopt the following precautions:

- Wear loose and light-coloured clothing to reduce heat absorption and facilitate sweat evaporation and heat dissipation;
- Avoid vigorous exercise and prolonged activities like hiking or trekking as heat, sweating and exhaustion can place additional demands on the physique;
- Perform outdoor activities in the morning or the late afternoon;
- For indoor activities, open all windows, use a fan or use air-conditioning to maintain good ventilation;
- Do not stay inside a parked vehicle; and
- Reschedule work to cooler times of the day. If working in a hot environment is inevitable, introduce shade in the workplace where practicable. Start work slowly and pick up the pace gradually. Move to a cool area for rest at regular intervals to allow the body to recuperate.

The public should also note the latest and the forecast Ultraviolet (UV) Index released by the Hong Kong Observatory (HKO). When the UV Index is high (6 or above):

- Minimise direct exposure of the skin and the eyes to sunlight;
- Wear long-sleeved and loose-fitting clothes;
- Wear a wide-brimmed hat or use an umbrella;
- Seek a shaded area or put on UV-blocking sunglasses;
- Apply a broad-spectrum sunscreen lotion with a sun protection factor

(SPF) of 15 or above. Apply liberally and reapply after swimming, sweating or towelling off; and

- While using DEET-containing insect repellents for personal protection against mosquito-borne diseases, apply sunscreen first, then insect repellent.

If symptoms develop, such as dizziness, headache, nausea, shortness of breath or confusion, rest and seek help immediately, and seek medical advice as soon as possible.

â€‹The public may obtain more information from the DH's Health Education Infoline (2833 0111), [heat stroke](#) page and [UV radiation](#) page; the HKO's Dial-a-Weather (1878 200), latest [weather report and forecast](#), [UV Index](#) and weather information for [hiking and mountaineering](#); and [press releases](#) of the Labour Department on precautions against heat stroke for outdoor workers and their employers when the Very Hot Weather Warning is in force.
