

Government finishes exercise on “restriction-testing declaration” in respect of specified “restricted area” in Tung Chung and enforcement operation for breaches of compulsory testing notice (with photo)

The Government yesterday (January 29) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 8pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tung Chung (i.e. Tower 16, Crystal Cove, Caribbean Coast Phase 4, 1 Kin Tung Road, Tung Chung, excluding the Neighbourhood Advice-Action Council Tung Yan Day Nursery and Tower 15, Crystal Cove, Caribbean Coast) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing were required to stay in their premises until all such persons identified in the area had undergone testing and the test results were mostly ascertained. Moreover, the Government issued a compulsory testing notice yesterday, requiring persons who had been present at the above building for more than two hours from January 15, 2022 to January 29, 2022, even if they were not present in the "restricted area" at the time when the declaration took effect, to undergo compulsory testing on or before January 31, 2022. The Government announced the completion of the compulsory testing exercise at around 6.30am today (January 30) and carried out enforcement action in the "restricted area" afterwards to verify that all people in the "restricted area" had undergone compulsory testing in accordance with the requirements of the relevant declaration and compulsory testing notice. The Government announced that the enforcement operation ended at around 9am today.

In this exercise, the Home Affairs Department (HAD) (including the Islands District Office), the Hong Kong Police Force, the Food and Environmental Hygiene Department, the Trade and Industry Department, the Labour Department, and the Auxiliary Medical Service mobilised around 205 staff to arrange for implementation of the declaration and enforcement actions for breaches of the compulsory testing notice issued earlier.

The HAD also set up a hotline for people restricted by the declaration to make enquiries and seek assistance.

The Government thanks persons subject to compulsory testing for their support and understanding. With everyone's co-operation and efforts, coupled with the tireless efforts of the testing contractors, residents have been

informed about their testing results by SMS notification. After finishing the compulsory testing exercise at around 6.30am today, the Government took enforcement action in the "restricted area" immediately to verify that all people in the "restricted area" had undergone testing according to the requirements of the declaration and the compulsory testing notice. Persons who could present an SMS notification containing a negative testing result or wore a wristband as proof of having undergone the compulsory testing could leave the "restricted area" through the designated exit after providing personal information to a prescribed officer. The enforcement operation was completed at around 9am. Test records of around 100 persons subject to compulsory testing were checked. Five persons were found not having undergone compulsory testing and compulsory testing orders were issued to them. Taking into account the above situation, the Secretary for Food and Health revoked the "restriction-testing declaration" in accordance with Cap. 599J (see attachment).

The Government reminds the about 65 households who have not answered the door to contact the Government for arrangement of testing as soon as possible after reading the notices put up by the Government, in the hope of eliminating the possible risk of further spread of the virus in the community.

The Government thanks all participating government staff and the testing agencies for their hard work. The Government is also grateful to those subject to compulsory testing for their support and understanding, and their full co-operation during this period in undergoing testing and waiting for the results at home.

The Government will seriously follow up on the compliance situation of the compulsory testing notices and the "restriction-testing declaration" by persons subject to compulsory testing. Any person who fails to comply with the compulsory testing notices commits an offence and may be liable to a fixed penalty of \$5,000. The person will also be issued with a compulsory testing order, requiring him or her to undergo testing within a specified time frame. Failure to comply with the order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.

[Key statistics on service demand of A&E Departments and occupancy rates in public hospitals](#)

The following is issued on behalf of the Hospital Authority:

During the winter surge, the Hospital Authority closely monitors the service demand of Accident and Emergency Departments and the occupancy rates in public hospitals. Key service statistics are being issued daily for public information. Details are in the appended table.

[Government gazettes compulsory testing notice](#)

The Government exercises the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publishes in the Gazette a compulsory testing notice, which requires any person who had been present at 38 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

In view of eight local/local-related cases and six import-related/possibly import-related cases, 37 specified premises are included in the compulsory testing notice. The Government strongly reminds members of the public to strictly follow the compulsory testing requirements and undergo the multiple tests on time as required. The above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well. They are advised to closely monitor their health conditions. They should seek medical attention and undergo testing even if they have only mild symptoms.

Furthermore, since some sewage samples collected in Tsz Wan Shan have tested positive, one specified premises is included in the compulsory testing notice.

Details of the compulsory testing notice are available on the Centre for Health Protection (CHP)'s website via the following link: (www.chp.gov.hk/files/pdf/ctn_20220129.pdf).

Except for tests that, as specified, may be carried out using deep

throat saliva sample, persons subject to compulsory testing in accordance with a compulsory testing notice must go to any of the mobile specimen collection stations, community testing centres (CTCs) or recognised local medical testing institutions to undergo professional swab sampling in fulfilling the requirements for compulsory testing. Young children may continue to undergo the test using a stool specimen.

The Comirnaty and CoronaVac vaccines are highly effective in preventing severe cases and deaths from COVID-19. They can provide protection to those vaccinated to prevent serious complications and even death after infection. The Government appeals to persons who are not yet vaccinated, especially senior citizens, chronic patients and other immunocompromised persons who face a higher chance of death after COVID-19 infection, to get vaccinated as soon as possible for better self-protection.

Subsequent to the announcement by the CHP on the updated quarantine arrangements of local COVID-19 cases with a mutant strain, persons who resided or worked within the same building as the residence of relevant cases will be subject to compulsory testing on specified dates in accordance with the announcement by the Department of Health (DH). They will also be required to undergo self-monitoring until the 21st day (see the details of the buildings and dates of testing at www.coronavirus.gov.hk/pdf/CTN_Specified_premises_and_Dates_of_Testing.pdf). In addition, all household members of close contacts are required to undergo compulsory testing. Any person who had lived with a person placed under quarantine pursuant to section 22 of the Prevention and Control of Disease Regulation (Cap. 599A) (person under quarantine) in the same residential unit on the date of commencement of quarantine or during the 14 days before that day, and who becomes aware of the quarantine of the person under quarantine when the relevant quarantine has not yet been completed, has to undergo testing within two days of him or her becoming aware that the person under quarantine has been placed under quarantine and report to the Government the result of the test by phone (6275 6901), fax (2530 5872) or email (ct@csb.gov.hk) within three days of undergoing the test. For prudence's sake, the above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well.

CTCs provide testing services for the public, including free service for persons subject to compulsory testing. Booking and walk-in services are available. Members of the public only need to provide simple personal information on the 24-hour booking system (www.communitytest.gov.hk/en). The system shows the booking status of the centres for the coming two weeks to facilitate the public's planning and selection of a suitable testing centre and a time slot for testing. The testing centres will accord priority to serve individuals with advance bookings. As of 6pm on January 29, there were around 11 000 booking places available for today and tomorrow (January 30 and 31) at the CTCs, and around 55 per cent and 75 per cent availability for booking places for the coming seven days and 14 days respectively. Members of the public may call the testing centres for enquiries on the availability of bookings or walk-in quotas before visiting the centres.

The Government will set up additional mobile specimen collection stations at Tsz Wan Shan Community Hall, Choi Wan Community Centre and Ngau Tau Kok Park today to provide free services for persons subject to compulsory testing. The service period of the mobile specimen collection station at Tai Wo Hau Sports Centre will be extended to January 31. In view of the overall testing demand across Hong Kong, the mobile specimen collection station at Wang Sin House of Cheung Wang Estate will cease operation from today onwards in order to tackle the latest epidemic development more effectively.

Free testing service will be provided to persons subject to compulsory testing at CTCs and mobile specimen collection stations located at 53 places in various districts today. The testing capacity should be sufficient to meet the demand. Persons subject to compulsory testing and those who received the "LeaveHomeSafe" COVID-19 exposure notification or SMS notification from the CHP reminding them to undergo testing as soon as possible may conduct free testing at CTCs or mobile specimen collection stations (if the service scope is applicable). The opening dates and operating hours of the mobile specimen collection stations are stated in the Annex.

Persons subject to compulsory testing may choose to undergo testing via the following routes:

(a) For tests which require using a sample taken through combined nasal and throat swabs

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable)

at www.coronavirus.gov.hk/eng/early-testing.html) for testing;

2. To attend any of the CTCs (see the list at www.communitytest.gov.hk/en);

3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results (see the list

at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories RTPCR.pdf), and the relevant sample must be taken through combined nasal and throat swabs; or

4. To use a specimen bottle distributed to the relevant specified premises by the CHP (if applicable), and return the specimen bottle with the stool sample collected as per relevant guidelines.

(b) For tests which may be carried out using deep throat saliva sample, or for persons holding a medical certificate issued by a registered medical practitioner proving that they are unfit to undergo testing using a sample taken through combined nasal and throat swabs because of health reasons

1. To obtain a deep throat saliva specimen collection pack from any of the 120 post offices, vending machines set up at 20 MTR stations or 47 designated general out-patient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times, at www.coronavirus.gov.hk/eng/early-testing.html);

2. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority; or

3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results.

A spokesman for the Food and Health Bureau cautioned that testing received at the Accident and Emergency Departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the CTCs."

Persons subject to compulsory testing must keep the SMS notifications containing the result of the test and the relevant medical certificate (if applicable) for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notices should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the CTCs, they can check the centre's appointment status in advance. The hotlines of the CTCs are available at www.communitytest.gov.hk/en/info.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or had contact with cases tested positive), to undergo testing promptly for early identification of infected persons."

Yellow fire danger warning

Attention duty announcers, radio and TV stations:

Yellow fire danger warning

The fire danger situation today (January 30) is yellow and the risk of fire is high. People are urged to prevent fires breaking out and hikers should also be vigilant.

Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in Kwai Chung (with photo)

The Government yesterday (January 29) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 8pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Kwai Chung (i.e. Fu Wing House and Fu Wah House, Tai Wo Hau Estate, Kwai Chung) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained.

In addition, the Government had issued a compulsory testing notice yesterday to any person who had been present at the above buildings for more than two hours from January 15 to January 29, even if they were not present in the "restricted area" at the time when the declaration took effect, they must undergo compulsory testing on or before January 31.

The Government finished the compulsory testing exercise at around 7am today (January 30) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7am today, persons in the "restricted area" in Kwai

Chung who have undergone testing and are able to present SMS notifications with negative test results as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 2am today. As at 2am today, 1 949 persons had undergone testing. No confirmed case was found.

Moreover, the Government also assigned staff to visit 773 households, among which 56 households did not answer the door. The Government will take measures to follow up .

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$5,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.
