

List of environmental impact assessments in fourth quarter of 2021 released

The Environmental Protection Department today (January 12) released a list of completed and newly commenced statutory environmental impact assessments (EIAs) and non-statutory environmental studies for major development projects between October 1 and December 31, 2021.

Updated information related to the Environmental Impact Assessment Ordinance is available on its website at www.epd.gov.hk/eia.

Completed statutory EIAs and non-statutory environmental studies for projects in the fourth quarter of 2021 include:

A. Statutory EIAs:

1. Revised Trunk Road T4 in Sha Tin
(Civil Engineering and Development Department)
2. Relocation of Diamond Hill Fresh Water and Salt Water Service Reservoirs to Caverns
(Water Supplies Department)

B. Non-statutory environmental studies for projects:

Nil

Newly commenced statutory EIAs and non-statutory environmental studies for projects include:

A. Statutory EIAs:

1. Construction of Annex Block at Hong Kong Observatory Headquarters, Tsim Sha Tsui (EIA Study Brief no. ESB-347/2021)
(Hong Kong Observatory)
2. Tuen Mun Bypass (EIA Study Brief no. ESB-348/2021)
(Highways Department)
3. Reclamation for Kau Yi Chau Artificial Islands (EIA Study Brief no. ESB-349/2021)
(Civil Engineering and Development Department)
4. Kau Yi Chau Artificial Islands Development (EIA Study Brief no.

ESB-350/2021)

(Civil Engineering and Development Department)

5. Hong Kong Island – Northeast Lantau Link (EIA Study Brief no.

ESB-351/2021)

(Civil Engineering and Development Department)

B. Non-statutory environmental studies for projects:

Nil

[Government finishes exercise on “restriction-testing declaration” in respect of specified “restricted area” in North Point and enforcement operation for breaches of compulsory testing notice \(with photo\)](#)

â€‹The Government yesterday (January 11) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 7pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in North Point (i.e. Maple Gardens Phase III, 51 Kin Wah Street, North Point) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing were required to stay in their premises until all such persons identified in the area had undergone testing and the test results were mostly ascertained. Moreover, the Government issued a compulsory testing notice yesterday, requiring persons who had been present at the above building for more than two hours from December 30, 2021 to January 11, 2022, even if they were not present in the "restricted area" at the time when the declaration took effect, to undergo compulsory testing on or before January 13, 2022. The Government announced the completion of the compulsory testing exercise at around 6.30am today (January 12) and carried out enforcement action in the "restricted area" afterwards to verify that all people in the "restricted area" had undergone compulsory testing in accordance with the requirements of the relevant declaration and compulsory testing notice. The Government announced that the enforcement operation ended at around 9am today.

In this exercise, the Home Affairs Department (HAD) (including

the Eastern District Office), the Hong Kong Police Force, the Food and Environmental Hygiene Department, and the Auxiliary Medical Service mobilised around 140 staff to arrange for implementation of the declaration and enforcement actions for breaches of the compulsory testing notice issued earlier.

The Government provided simple food for persons subject to compulsory testing, including canned food, instant noodles and corn kernels, so as to facilitate the dinner arrangements of some persons subject to compulsory testing. One box of masks was also provided to each person subject to compulsory testing to help them fight against the virus.

The HAD also set up a hotline for people restricted by the declaration to make enquiries and seek assistance.

The Government thanks persons subject to compulsory testing for their support and understanding. With everyone's co-operation and efforts, coupled with the tireless efforts of the testing contractors, residents have been informed about their testing results by SMS notification. After finishing the compulsory testing exercise at around 6.30am today, the Government took enforcement action in the "restricted area" immediately to verify that all people in the "restricted area" had undergone testing according to the requirements of the declaration and the compulsory testing notice. Persons who could present an SMS notification containing a negative testing result or wore a wristband as proof of having undergone the compulsory testing could leave the "restricted area" through the designated exit after providing personal information to a prescribed officer. The enforcement operation was completed at around 9am. Test records of around 25 persons subject to compulsory testing were checked. Nobody was found to have not undergone compulsory testing. Taking into account the above situation, the Secretary for Food and Health revoked the "restriction-testing declaration" in accordance with Cap. 599J (see attachment).

The Government reminds the about 30 households who have not answered the door to contact the Government for arrangement of testing as soon as possible after reading the notices put up by the Government, in the hope of eliminating the possible risk of further spread of the virus in the community.

The Government thanks all participating government staff and the testing agencies for their hard work. The Government is also grateful to those subject to compulsory testing for their support and understanding, and their full co-operation during this period in undergoing testing and waiting for the results at home.

The Government will seriously follow up on the compliance situation of the compulsory testing notices and the "restriction-testing declaration" by persons subject to compulsory testing. Any person who fails to comply with the compulsory testing notices commits an offence and may be liable to a fixed penalty of \$5,000. The person will also be issued with a compulsory testing order, requiring him or her to undergo testing within a specified

time frame. Failure to comply with the order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.

[Key statistics on service demand of A&E Departments and occupancy rates in public hospitals](#)

The following is issued on behalf of the Hospital Authority:

During the winter surge, the Hospital Authority closely monitors the service demand of Accident and Emergency Departments and the occupancy rates in public hospitals. Key service statistics are issued daily for public information. Details are in the appended table.

[Government gazettes compulsory testing notice](#)

The Government exercises the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publishes in the Gazette a compulsory testing notice, which requires any person who had been present at 34 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

In view of one import-related case and six cases tested preliminarily positive, 31 specified premises are included in the compulsory testing

notice. The Government strongly reminds members of the public to strictly follow the compulsory testing requirements and undergo the multiple tests on time as required. The above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well. They are advised to closely monitor their health conditions. They should seek medical attention and undergo testing even if they have only mild symptoms.

Since there was an outbreak of upper respiratory tract infection and/or influenza-like illness in three schools, and the symptoms of the diseases concerned are similar to those of COVID-19, for prudence's sake, the relevant schools or their specified levels are covered in the compulsory testing notice. Persons who have completed a COVID-19 vaccination course would be taken to have complied with the requirements set out in the compulsory testing notice.

Details of the compulsory testing notice are available on the COVID-19 thematic website via the following link:

www.coronavirus.gov.hk/pdf/compulsorytestingnotice_premises_ENG.pdf.

Furthermore, the address of a specified premises included in the compulsory testing notice announced on January 10 should be Block 1, Ming Wah Dai Ha, Shau Kei Wan, Hong Kong. Any person who had been present at that premises for more than two hours at any time during the period from January 5 to January 9 (including but not limited to residents, visitors and workers), has to undergo testing on the specified dates (i.e. January 9 or 10; January 11; January 14; January 19 and January 26).

Persons subject to compulsory testing in accordance with a compulsory testing notice must go to any of the mobile specimen collection stations, community testing centres (CTCs) or recognised local medical testing institutions to undergo professional swab sampling in fulfilling the requirements for compulsory testing. Young children may continue to undergo the test using a stool specimen.

If Tropical Cyclone Warning Signal No. 3 or above, the Red or Black Rainstorm Warning Signal or the post-super typhoon "extreme conditions" announcement by the Government is in force at any time during the period for undergoing the compulsory testing, the period for undergoing the compulsory testing will be further extended for one day.

The Comirnaty and CoronaVac vaccines are highly effective in preventing severe cases and deaths from COVID-19. They can provide protection to those vaccinated to prevent serious complications and even death after infection. The Government appeals to persons who are not yet vaccinated, especially senior citizens, chronic patients and other immunocompromised persons who face a higher chance of death after COVID-19 infection, to get vaccinated as soon as possible for better self-protection.

Subsequent to the announcement by the Centre for Health Protection (CHP) on the updated quarantine arrangements of local COVID-19 cases with a mutant strain, persons who resided or worked within the same building as the residence of relevant cases will be subject to compulsory testing on

specified dates in accordance with the announcement by the Department of Health (DH). They will also be required to undergo self-monitoring until the 21st day (see the details of the buildings and dates of testing at www.coronavirus.gov.hk/pdf/CTN_Specified_premises_and_Dates_of_Testing.pdf). In addition, all household members of close contacts are required to undergo compulsory testing. Any person who had lived with a person placed under quarantine pursuant to section 22 of the Prevention and Control of Disease Regulation (Cap. 599A) (person under quarantine) in the same residential unit on the date of commencement of quarantine or during the 14 days before that day, and who becomes aware of the quarantine of the person under quarantine when the relevant quarantine has not yet been completed, has to undergo testing within two days of him or her becoming aware that the person under quarantine has been placed under quarantine and report to the Government the result of the test by phone (6275 6901), fax (2530 5872) or email (ct@csb.gov.hk) within three days of undergoing the test. For prudence's sake, the above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well.

CTCs provide testing services for the public, including free service for persons subject to compulsory testing. Booking and walk-in services are available. Members of the public only need to provide simple personal information on the 24-hour booking system (www.communitytest.gov.hk/en). The system shows the booking status of the centres for the coming two weeks to facilitate the public's planning and selection of a suitable testing centre and a time slot for testing. The testing centres will accord priority to serve individuals with advance bookings. As of 6pm on January 11, there were around 18 000 booking places available for today (January 12) at the CTCs, and around 74 per cent availability for booking places for the coming seven days. Members of the public may call the testing centres for enquiries on the availability of bookings or walk-in quotas before visiting the centres.

Nine mobile specimen collection stations are in service in Tuen Mun district today to provide free testing for all local residents and workers (including those subject to compulsory testing) (details at <https://www.info.gov.hk/gia/general/202201/11/P2022011100819.htm>). The opening hours of the CTC at Quarry Bay Community Hall and the mobile specimen collection station at Quarry Bay Community Hall carpark will be extended to 10pm from today to January 14. The Government will also set up or re-open mobile specimen collection stations at Lai Wan Road in Lai Chi Kok (outside 5-7 Nassau Street of Mei Foo Sun Chuen Phase 5), Kam Fung Court in Ma On Shan, Granville Garden in Tai Wai and Grandeur Terrace in Tin Shui Wai to provide free services for persons subject to compulsory testing today, details of the service scope are in Annex.

Free testing service will be provided to persons subject to compulsory testing at CTCs and mobile specimen collection stations located at 64 places in various districts today. The testing capacity should be sufficient to meet the demand. Persons subject to compulsory testing and those received the "LeaveHomeSafe" COVID-19 exposure notification or SMS notification from the CHP reminding them to undergo testing as soon as possible may conduct free testing at CTCs or mobile specimen collection stations (if the service scope

is applicable). The opening dates and operating hours of the mobile specimen collection stations are stated in Annex.

Persons subject to compulsory testing may choose to undergo testing via the following routes:

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable) at www.coronavirus.gov.hk/eng/early-testing.html) for testing;
2. To attend any of the CTCs (see the list at www.communitytest.gov.hk/en);
3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories_RTPCR.pdf), and the relevant sample must be taken through combined nasal and throat swabs; or
4. To use a specimen bottle distributed to the relevant specified premises by the CHP (if applicable), and return the specimen bottle with the stool sample collected as per relevant guidelines.

If a person subject to compulsory testing obtains a medical certificate issued by a registered medical practitioner, proving that he or she is unfit to undergo testing using a sample taken through combined nasal and throat swabs because of health reasons, then he or she may choose to undergo testing via the following routes by providing a deep throat saliva sample:

1. To obtain a deep throat saliva specimen collection pack from any of the 120 post offices, vending machines set up at 20 MTR stations or 47 designated general out-patient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times, at www.coronavirus.gov.hk/eng/early-testing.html);
2. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority; or
3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results.

A spokesman for the Food and Health Bureau cautioned that testing received at the Accident and Emergency Departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the CTCs."

Persons subject to compulsory testing must keep the SMS notifications containing the result of the test and the relevant medical certificate (if applicable) for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notices should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the CTCs, they can check the centre's appointment status in advance. The hotlines of the CTCs are available at www.communitytest.gov.hk/en/info.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or had contact with cases tested positive), to undergo testing promptly for early identification of infected persons."

Government enforces "restriction-testing declaration" and compulsory testing notice in respect of specified "restricted area" in Tuen Mun (with photo)

â€‹The Government yesterday (January 11) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 7:30pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Tuen Mun (i.e. Block 3, Po Tin Estate, 99 Ming Kum Road, Tuen Mun, New Territories, Hong Kong.) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to

stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained. In addition, the Government had issued a compulsory testing notice yesterday to any person who had been present at the building for more than two hours from December 29, 2021 to January 11, 2022, to undergo compulsory testing on or before January 13, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 7am today (January 12) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7am today, persons in the "restricted area" in Tuen Mun who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 1am today. As at 1am today, around 1 249 persons had undergone testing. No confirmed case was found.

Moreover, the Government also assigned staff to visit around 896 households, among which 194 households did not answer the door. The Government will take measures to follow up.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$5,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.
