

## Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in North Point (with photo)

The Government yesterday (January 5) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 9.30pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in North Point (i.e. Block 15, Provident Centre, 49 Wharf Road, North Point, excluding the shops at WOFU shopping mall) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained. In addition, the Government had issued a compulsory testing notice yesterday to any person who had been present at the building for more than two hours from December 16, 2021 to January 5, 2022, to undergo compulsory testing on or before January 7, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 7.15am today (January 6) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7.15am today, persons in the "restricted area" in North Point who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 2am today. As at 2am today, around 320 residents had undergone testing. No tested positive cases were found.

Moreover, the Government also assigned staff to visit around 100 households, among which about ten households did not answer the door. Those may include some households undergoing quarantine or isolation. Some units are possibly vacant as well. The Government does not have detailed information in this respect and will take measures to follow up.

The Government also understands that some residents already underwent

testing at the mobile specimen collection stations set up in the district or by other means. Therefore, persons in the "restricted area" who have undergone testing from January 3, 2022 to January 5, 2022, and are able to provide the SMS notification through mobile phone or related certification containing the test results, are not required to take the test again.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$5,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.

## [Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in Kowloon Tong \(with photo\)](#)

The Government yesterday (January 5) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 7pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Kowloon Tong (i.e. Rock View Gardens, 36 Tat Chee Avenue, Yau Yat Tsuen, Kowloon Tong) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have

undergone testing and the test results are mostly ascertained. In addition, the Government had issued a compulsory testing notice yesterday to any person who had been present at the building for more than two hours from December 16, 2021 to January 5, 2022, to undergo compulsory testing on or before January 7, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 7am today (January 6) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7am today, persons in the "restricted area" in Kowloon Tong who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 12am today. As at 12am today, around 60 residents had undergone testing. No tested positive cases were found.

Moreover, the Government also assigned staff to visit around 20 households, among which one household did not answer the door. Upon investigation, it is believed that the unit concerned is vacant. All the other households have undergone testing.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$5,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.

## Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in Causeway Bay

â€‹The Government yesterday (January 5) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 7.30pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Causeway Bay (i.e. Serene Court, 41 Tin Hau Temple Road, Causeway Bay) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained. In addition, the Government had issued a compulsory testing notice yesterday to any person who had been present at the building for more than two hours from December 16, 2021 to January 5, 2022, to undergo compulsory testing on or before January 7, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 6.30am today (January 6) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 6.30am today, persons in the "restricted area" in Causeway Bay who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government arranged dedicated staff to collect samples through combined nasal and throat swabs at the "restricted area" yesterday and requested persons subject to compulsory testing to undergo testing before 12am today. As at 12am today, around 135 residents had undergone testing. No tested positive cases were found.

Moreover, the Government also assigned staff to visit around 40 households, among which four households did not answer the door. Those may include some households undergoing quarantine or isolation. Some units are possibly vacant as well. The Government does not have detailed information in this respect and will take measures to follow up.

The Government also understands that some residents already underwent

testing at the mobile specimen collection stations set up in the district or by other means. Therefore, persons in the "restricted area" who have undergone testing from January 3, 2022 to January 5, 2022, and are able to provide the SMS notification through mobile phone or related certification containing the test results, are not required to take the test again.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$5,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.

## **Service suspension of Hong Kong Island Smart Identity Card Replacement Centre on Jan 6**

The Immigration Department (ImmD) today (January 6) said that in relation to a case tested preliminarily positive for SARS-CoV-2 virus who had visited the Hong Kong Island Smart Identity Card Replacement Centre (the Centre), the Government exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and published in the Gazette a compulsory testing notice, which required any person who had been present at the Centre during the period from 5pm to 6pm on December 30, 2021 to undergo a COVID-19 nucleic acid test. The Centre will suspend service today. Public services of the Centre will be resumed tomorrow (January 7).

Members of the public who have appointments may consider proceeding to the Centre in the days ahead, or the other eight Smart Identity Card Replacement Centres (SIDCCs) for replacement of identity cards without the need to make another appointment. Information on the address and working hours of the other eight SIDCCs can be obtained at [www.smartid.gov.hk/en/Where-to-replace-identity-cards/index.html](http://www.smartid.gov.hk/en/Where-to-replace-identity-cards/index.html). For enquiries during the closure of the Centre, please contact the ImmD by calling the enquiry hotline 3521 1688 from 9am to 5pm.

During the situation of COVID-19 infection, the ImmD has been strictly implementing various disease prevention measures, including measuring the body temperature of and providing alcohol-based handrub to all persons before their entry into the offices, providing employees with masks and other

protective equipments, requiring employees to wear masks when performing duties, and stepping up the cleaning and sterilising measures for the working environment.

The ImmD will continue to maintain close liaison with the Centre for Health Protection. The ImmD has also reminded its staff to pay attention to personal hygiene and stay vigilant. Staff have been reminded to seek medical advice and inform the department as soon as possible if feeling unwell.

---

## Government gazettes compulsory testing notice

The Government exercises the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publishes in the Gazette a compulsory testing notice, which requires any person who had been present at 41 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

In view of five possibly import-related cases, 41 specified premises visited by the cases are included in the compulsory testing notice. The Government strongly reminds members of the public to strictly follow the compulsory testing requirements and undergo the multiple tests on time as required. The above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well. They are advised to closely monitor their health conditions. They should seek medical attention and undergo testing even if they have only mild symptoms.

Persons subject to compulsory testing in accordance with a compulsory testing notice must go to any of the mobile specimen collection stations, community testing centres (CTCs) or recognised local medical testing institutions to undergo professional swab sampling in fulfilling the requirements for compulsory testing. Young children may continue to undergo the test using a stool specimen.

If Tropical Cyclone Warning Signal No. 3 or above, the Red or Black Rainstorm Warning Signal or the post-super typhoon "extreme conditions" announcement by the Government is in force at any time during the period for undergoing the compulsory testing, the period for undergoing the compulsory testing will be further extended for one day.

The Comirnaty and CoronaVac vaccines are highly effective in preventing severe cases and deaths from COVID-19. They can provide protection to those vaccinated to prevent serious complications and even death after infection. The Government appeals to persons who are not yet vaccinated, especially

senior citizens, chronic patients and other immunocompromised persons who face a higher chance of death after COVID-19 infection, to get vaccinated as soon as possible for better self-protection.

Details of the above compulsory testing notice are in Annex 1.

Subsequent to the announcement by the Centre for Health Protection (CHP) on the updated quarantine arrangements of local COVID-19 cases with a mutant strain, persons who resided or worked within the same building as the residence of relevant cases will be subject to compulsory testing on specified dates in accordance with the announcement by the Department of Health (DH). They will also be required to undergo self-monitoring until the 21st day (see the details of the buildings and dates of testing at [www.coronavirus.gov.hk/pdf/CTN\\_Specified\\_premises\\_and\\_Dates\\_of\\_Testing.pdf](http://www.coronavirus.gov.hk/pdf/CTN_Specified_premises_and_Dates_of_Testing.pdf)). For prudence's sake, the above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well.

In accordance with the compulsory testing notice issued earlier, all household members of close contacts are required to undergo compulsory testing. Any person who had lived with a person placed under quarantine pursuant to section 22 of the Prevention and Control of Disease Regulation (Cap. 599A) (person under quarantine) in the same residential unit on the date of commencement of quarantine or during the 14 days before that day, and who becomes aware of the quarantine of the person under quarantine when the relevant quarantine has not yet been completed, has to undergo testing within two days of him or her becoming aware that the person under quarantine has been placed under quarantine and report to the Government the result of the test by phone (6275 6901), fax (2530 5872) or email ([ct@csb.gov.hk](mailto:ct@csb.gov.hk)) within three days of undergoing the test. For prudence's sake, the above compulsory testing requirement applies to those who have completed a COVID-19 vaccination course as well.

CTCs provide testing services for the public, including free service for persons subject to compulsory testing. Booking and walk-in services are available. Members of the public only need to provide simple personal information on the 24-hour booking system ([www.communitytest.gov.hk/en](http://www.communitytest.gov.hk/en)). The system shows the booking status of the centres for the coming two weeks to facilitate the public's planning and selection of a suitable testing centre and a time slot for testing. The testing centres will accord priority to serve individuals with advance bookings. As of 6pm on January 5, there were around 28 000 booking places available for today (January 6) at the CTCs, and around 89 per cent availability for booking places for the coming seven days. Members of the public may call the testing centres for enquiries on the availability of bookings or walk-in quotas before visiting the centres.

The Government will set up or re-open mobile specimen collection stations at the following locations today for persons subject to compulsory testing, details of the service scope are in Annex 2:

- Kennedy Town Playground
- Lockhart Road Playground in Wan Chai (open until January 17)

- Bandstand in Victoria Park (near Causeway Bay MTR station and exits to Gloucester Road) (open until January 23)
- North Point Community Hall
- Open area outside Wing Chak House of Chak On Estate in Shek Kip Mei
- Tennis court No.1 of Royal Ascot in Fo Tan
- Kin Sang Community Hall in Tuen Mun (open until January 21)
- Open space outside Fu Tung Plaza of Fu Tung Estate in Tung Chung
- Open area next to Discovery Bay Fire Station

Outdoor mobile specimen collection stations will be closed if Tropical Cyclone Warning Signal No. 3 or the Red Rainstorm Warning Signal is in force while all mobile specimen collection stations together with all CTCs will be closed when Tropical Cyclone Warning Signal No. 8 or higher or the Black Rainstorm Warning Signal is in force.

Free testing service will be provided to persons subject to compulsory testing at CTCs and mobile specimen collection stations located at 38 places in various districts today. The testing capacity should be sufficient to meet the demand. Persons subject to compulsory testing and those received the "LeaveHomeSafe" COVID-19 exposure notification or SMS notification from the CHP reminding them to undergo testing as soon as possible may conduct free testing at CTCs or mobile specimen collection stations (if the service scope is applicable). The opening dates and operating hours of the mobile specimen collection stations are stated in Annex 2.

Persons subject to compulsory testing may choose to undergo testing via the following routes:

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable) at [www.coronavirus.gov.hk/eng/early-testing.html](http://www.coronavirus.gov.hk/eng/early-testing.html)) for testing;
2. To attend any of the CTCs (see the list at [www.communitytest.gov.hk/en](http://www.communitytest.gov.hk/en));
3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results (see the list at [www.coronavirus.gov.hk/pdf/List\\_of\\_recognised\\_laboratories RTPCR.pdf](http://www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories RTPCR.pdf)), and the relevant sample must be taken through combined nasal and throat swabs; or
4. To use a specimen bottle distributed to the relevant specified premises by the CHP (if applicable), and return the specimen bottle with the stool sample collected as per relevant guidelines.

If a person subject to compulsory testing obtains a medical certificate issued by a registered medical practitioner, proving that he or she is unfit to undergo testing using a sample taken through combined nasal and throat swabs because of health reasons, then he or she may choose to undergo testing via the following routes by providing a deep throat saliva sample:

1. To obtain a deep throat saliva specimen collection pack from any of the 120 post offices, vending machines set up at 20 MTR stations or 47 designated general out-patient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times,

at [www.coronavirus.gov.hk/eng/early-testing.html](http://www.coronavirus.gov.hk/eng/early-testing.html));

2. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority; or
3. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results.

A spokesman for the Food and Health Bureau cautioned that testing received at the Accident and Emergency Departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the CTCs."

Persons subject to compulsory testing must keep the SMS notifications containing the result of the test and the relevant medical certificate (if applicable) for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notices should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the CTCs, they can check the centre's appointment status in advance. The hotlines of the CTCs are available at [www.communitytest.gov.hk/en/info](http://www.communitytest.gov.hk/en/info).

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

Relevant officers of different government departments are empowered to perform certain functions under the relevant Regulations under the Prevention and Control of Disease Ordinance (Cap. 599), including requesting individuals to provide information and assistance when necessary. Any person who fails to comply with the relevant request commits an offence and would be liable to a

fine at level 3 (\$10,000). Collection and use of any personal data for conducting COVID-19 tests must meet the requirements under the Personal Data (Privacy) Ordinance (Cap. 486). Government departments or testing service providers which handle the relevant information may provide the data to the DH or other relevant departments for anti-epidemic purposes as necessary. The workflow does not involve the provision of any personal data to organisations or persons outside Hong Kong.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or contacted confirmed cases), to undergo testing promptly for early identification of infected persons."
