

Arrangements for services of Immigration Headquarters

The headquarters of the Immigration Department (ImmD) will move from Immigration Tower, 7 Gloucester Road, Wan Chai, Hong Kong, to Immigration Headquarters, 61 Po Yap Road, Tseung Kwan O, New Territories, on June 11 (Tuesday).

Apart from the Registration of Persons – Hong Kong Office located on the 8th Floor of the Immigration Tower in Wan Chai, which will continue to provide services at its current address, other public offices at the Immigration Tower in Wan Chai will be relocated to the Immigration Headquarters in Tseung Kwan O on June 11 (Tuesday) to continue to serve members of the public at the same hours and with new addresses in Annex 1. For details of the addresses and working hours of the new services provided at the Immigration Headquarters, i.e. Personal Documentation Self-services, Marriage Registration and Births Registration, please refer to Annex 2. Addresses and working hours of the offices are also available on the ImmD's website (www.immd.gov.hk) and its mobile application.

Furthermore, to tie in with the relocation of the headquarters, the incoming mail counter located on the 2nd Floor and the drop-in box located on the 1st Floor of the Immigration Tower in Wan Chai will cease service with effect from noon on June 8 (Saturday) and 5pm on June 11 (Tuesday), respectively. The incoming mail counter and the drop-in box for document submission by the public will be available at the G/F lobby of the Administration Tower at the Immigration Headquarters in Tseung Kwan O from June 11 (Tuesday), onwards.

For enquiries, please contact the ImmD by calling the enquiry hotline (2824 6111), by fax (2877 7711) or by email (enquiry@immd.gov.hk).

SHYA visits Chengdu to learn about community-building projects (with photos)

The Secretary for Home and Youth Affairs, Miss Alice Mak, began her visit to Chengdu today (June 6).

Miss Mak visited the Jinshui Street community of the Jiancheng subdistrict in Jianyang this morning, and received a briefing on the

practical experiences of district governance. She learnt that the services provided and activities organised by the community facility Yijiang Jinshui Community Living Space were aimed at fostering community connections and engagement. The facility also acts as a platform for residents' activities, leisure and exchanges, as well as a provider of convenient services and measures to the residents while maintaining a people-centric approach. Miss Mak stated that the district governance work of the Hong Kong Special Administrative Region Government is in line with this approach, and will continue to address issues related to people's concerns and resolve problems they have encountered within the district, thereby enhancing people's sense of happiness and contentment, while building a better community.

Miss Mak later met with representatives from the Hong Kong and Macao Affairs Office of the Sichuan Provincial People's Government, the Hong Kong & Macao Affairs Office of Chengdu Municipal People's Government and the People's Government of Jianyang City to exchange views on issues of mutual concern.

Miss Mak concluded her visit and returned to Hong Kong this afternoon.

Thematic Household Survey Report No. 79 published

The Thematic Household Survey Report No. 79 is published by the Census and Statistics Department (C&SD) today (June 6).

This publication contains key findings on Hong Kong population's pattern of smoking based on the Thematic Household Survey conducted from May to August 2023.

The survey results showed that there were some 577 300 daily conventional cigarette smokers in 2023, accounting for 9.1% of all persons aged 15 and over in Hong Kong, compared with the corresponding percentage of 9.5% in 2021. Daily conventional cigarette smokers consumed on average about 12 sticks of conventional cigarettes a day in 2023, while the corresponding figure in 2021 was about 13 sticks.

Including persons who consumed other forms of tobacco or related products (e.g. heated tobacco product, e-cigarette, cigar, hand-rolled cigarette, pipe-smoking, snuff/snus and water pipe), there were some 592 100 daily smokers in 2023, accounting for 9.4% of all persons aged 15 and over in Hong Kong, whereas the corresponding percentage in 2021 was 9.8%. There were some 11 600 daily smokers who consumed e-cigarettes, accounting for 0.2% of all persons aged 15 and over in Hong Kong, while the corresponding percentage in 2021 was 0.3%.

Other information

The survey successfully enumerated target respondents in some 10 100 households in accordance with a scientific sampling scheme to represent the population of Hong Kong.

Detailed findings of the survey, together with the population coverage and concepts/definitions of key terms, are presented in the publication. Users can browse and download the publication at the website of the C&SD (www.censtatd.gov.hk/en/EIndexbySubject.html?pcode=B1130201&scode=453).

Enquiries about the survey findings can be directed to the Social Surveys Section (1) of the C&SD (Tel: 2887 5103 or email: thematic@censtatd.gov.hk).

Inspection of aquatic products

imported from Japan

In response to the Japanese Government's plan to discharge nuclear-contaminated water at the Fukushima Nuclear Power Station, the Director of Food and Environmental Hygiene issued a Food Safety Order which prohibits all aquatic products, sea salt and seaweeds originating from the 10 metropolis/prefectures, namely Tokyo, Fukushima, Ibaraki, Miyagi, Chiba, Gunma, Tochigi, Niigata, Nagano and Saitama, from being imported into and supplied in Hong Kong.

For other Japanese aquatic products, sea salt and seaweeds that are not prohibited from being imported into Hong Kong, the Centre for Food Safety (CFS) of the Food and Environmental Hygiene Department will conduct comprehensive radiological tests to verify that the radiation levels of these products do not exceed the guideline levels before they are allowed to be supplied in the market.

As the discharge of nuclear-contaminated water is unprecedented and will continue for 30 years or more, the Government will closely monitor and step up the testing arrangements. Should anomalies be detected, the Government does not preclude further tightening the scope of the import ban.

From noon on June 5 to noon today (June 6), the CFS conducted tests on the radiological levels of 192 food samples imported from Japan, which were of the "aquatic and related products, seaweeds and sea salt" category. No sample was found to have exceeded the safety limit. Details can be found on the CFS's thematic website titled "Control Measures on Foods Imported from Japan"

(www.cfs.gov.hk/english/programme/programme_rafs/programme_rafs_fc_01_30_Nuclear_Event_and_Food_Safety.html).

In parallel, the Agriculture, Fisheries and Conservation Department (AFCD) has also tested 50 samples of local catch for radiological levels. All the samples passed the tests. Details can be found on the AFCD's website (www.afcd.gov.hk/english/fisheries/Radiological_testing/Radiological_Test.html).

The Hong Kong Observatory (HKO) has also enhanced the environmental monitoring of the local waters. No anomaly has been detected so far. For details, please refer to the HKO's website (www.hko.gov.hk/en/radiation/monitoring/seawater.html).

From August 24 to noon today, the CFS and the AFCD have conducted tests on the radiological levels of 57 024 samples of food imported from Japan (including 36 869 samples of aquatic and related products, seaweeds and sea salt) and 14 238 samples of local catch respectively. All the samples passed the tests.

Effective Exchange Rate Index

The effective exchange rate index for the Hong Kong dollar on Thursday, June 6, 2024 is 106.2 (up 0.1 against yesterday's index).
