## **DGCA visits Chengdu (with photos)**

The Director-General of Civil Aviation, Mr Victor Liu, visited Chengdu, Sichuan from July 10 to 13. During his stay, Mr Liu attended the Civil Air Navigation Service Organisation (CANSO) Asia Pacific Conference 2024, and visited different aviation organisations and entities to learn about the latest developments of civil aviation in the Mainland and to conduct in-depth discussions.

Leaders from civil aviation organisations from various States/Administrations across the Asia Pacific region attended the CANSO Asia Pacific Conference 2024, including the Deputy Administrator of Civil Aviation Administration of China (CAAC), Mr Ma Bing; and the Secretary of the Party Committee of the Air Traffic Management Bureau of CAAC, Mr Wen Xuezheng. Mr Liu was invited to speak in an expert panel during the conference, where he shared his insights on how modernisation of air traffic control in Asia Pacific can be accelerated from the management and operational perspectives.

The CANSO has also announced that "Airspace Asia Pacific 2025", a new exhibition and conference event dedicated to air traffic development and management in the Asia Pacific region, would be launched in Hong Kong in December next year. Mr Liu welcomed the launch of "Airspace Asia Pacific 2025" in Hong Kong and said, "While Hong Kong being an international aviation hub, we are honoured to host such major event at our world-class conference and exhibition facilities, and we welcome the participants to come and experience the vibrancy of our city as well as our hospitality."

Mr Liu also visited the Civil Aviation Flight University of China (CAFUC), the Second Research Institute of CAAC (CAACSRI) and the Chengdu Tianfu International Airport after the conference, including their facilities. Mr Liu called on and exchanged views with the management teams of these organisations and entities, including the President of the CAFUC, Mr Guan Lixin; and the Director of the CAACSRI, Mr Liu Weidong, on various topics including flight crew training, the latest aviation research and technological development as well as airport operations, and looked into ways to foster closer collaborations.

Accompanying Mr Liu to Chengdu were Assistant Director-General of Civil Aviation (Airport Standards), Miss Clara Wong; and the Assistant Director-

General of Civil Aviation (Air Traffic Management), Mr Tommy Au Yeung.

Mr Liu will return to Hong Kong today (July 13).

## New taxi fares to take effect from July 14

The Transport Department (TD) announced today (July 13) that the new taxi fares for urban, New Territories (NT) and Lantau taxis will take effect from tomorrow (July 14).

The new fares are as follows:

Fare (HK\$)	Urban Taxi (Red)	NT Taxi (Green)	Lantau Taxi (Blue)
Flagfall charge For the first two kilometres or any part thereof	\$29	\$25.5	\$24

Incremental charge For every subsequent 200 metres or any part thereof, or for every waiting period of one minute or any part thereof	(Below \$102.5) \$2.1 per jump	(Below \$82.5) \$1.9 per jump	(Below \$195) \$1.9 per jump
	(\$102.5 or above) \$1.4 per jump	(\$82.5 or above) \$1.4 per jump	(\$195 or above) \$1.6 per jump

For additional charges of the three types of taxis, the fares for every piece of baggage carried (except light personal hand baggage carried inside the passenger compartment) will remain at \$6; and the fares for every animal or bird carried and every hiring arranged through telephone booking will remain at \$5.

Taxi drivers have to charge according to taximeters. From July 14, taxi drivers have to display the fare conversion tables issued by the TD (see Annex) in the vehicle if the taximeters are yet to be adjusted to display the new fares. Taxi passengers have to pay the new fares according to the conversion tables. When taxi drivers charge new fares according to the conversion tables, the fare amount based on the new fares has to be written down on fare receipts issued to passengers.

Details on the new taxi fares are available on the TD's website ([www.td.gov.hk/en/transport\\_in\\_hong\\_kong/public\\_transport/taxi/taxi\\_fare\\_of\\_hong\\_kong/index.html](http://www.td.gov.hk/en/transport_in_hong_kong/public_transport/taxi/taxi_fare_of_hong_kong/index.html)).

## **LD reminds employers and employees to take heat stroke preventive measures in times of Heat Stress at Work**

### **Warning**

As the Heat Stress at Work Warning is now in effect, the Labour Department (LD) reminds employers and employees to take appropriate measures during the effective period of the warning to prevent heat stroke when working in hot weather or hot environments.

Employees who work outdoors or in non-air-conditioned indoor environments face high levels of heat stress and are at a relatively higher risk of heat stroke. Employers should assess the risk factors of heat stress for employees at work and, based on the identified risk factors, take necessary preventive and control measures, including rescheduling work periods, setting up shading covers, providing ventilation and heat dissipation equipment, and reminding employees to replenish water and rest in

a timely manner.

The Heat Stress at Work Warning is formulated by the LD based on the Hong Kong Heat Index. There are three levels of the warning: Amber, Red and Black, which help employers and employees better understand the level of heat stress while working outdoors or indoors without air-conditioning systems.

A spokesman for the LD said that when the department issues the Heat Stress at Work Warning, employers must refer to the criteria and recommendations provided in the "[Guidance Notes on Prevention of Heat Stroke at Work](#)" to conduct risk assessments, according to the workloads and other relevant heat stress risk factors, for employees who work outdoors or in non-air-conditioned indoor workplaces. Appropriate rest breaks should be arranged every hour, as far as reasonably practicable, based on various levels of the Heat Stress at Work Warning, to reduce employees' risk of heat stroke.

Employees must also follow instructions to rest on time. Whenever there are any symptoms of heat-related illnesses, such as headache, dizziness, thirst, and nausea, they should rest in a cool and shady place, drink water, and inform employers/supervisors to take appropriate action immediately.

The LD issued the "Guidance Notes on Prevention of Heat Stroke at Work", detailing the various risk factors that should be considered when conducting heat stress risk assessments and recommending corresponding control measures for identified risk factors for employers' and employees' reference. For the Heat Stress at Work Warning and related guidelines, please refer to the department's thematic webpage:
