

Press release: Recruitment Campaigns open for Psychiatrist and retired Judicial Parole Board members

The Centre for Public Appointments has today opened recruitment campaigns for both Psychiatrist and retired Judicial Parole Board members.

Martin Jones, CEO of the Parole Board, said:

“We are very happy to support these recruitment campaigns.

“It is an important and engaging role to be appointed as a Parole Board member, where protection of the public is the priority, and we welcome applicants who have the skills and experience to rise to that challenge.”

The key task of all members of the Parole Board is to make rigorous, fair and timely risk assessments about individual cases which have the primary aim of protecting the public.

These are routine recruitment campaigns to fill positions that will be vacated by a number of current Parole Board members who are near the end of their tenure. There is the potential for up to 20 appointments per campaign.

The appointment will run for 5 years with the possibility of reappointment for a further term subject to satisfactory appraisal and at the discretion of Ministers.

The deadline for applications is 12:00 on 21 May 2018.

Go to the Centre for Public Appointments website for eligibility criteria, job specifications, and how to apply:

Foreign Secretary statement on Prime Minister Netanyahu's Iran speech – GOV.UK

Boris Johnson responds to Prime Minister's Netanyahu's speech on 30th April 2018

Foreign Secretary, Boris Johnson, said:

The Israeli Prime Minister's presentation on Iran's past research into nuclear weapons technology underlines the importance of keeping the Iran nuclear deal's constraints on Tehran's nuclear ambitions.

The Iran nuclear deal is not based on trust about Iran's intentions; rather it is based on tough verification, including measures that allow inspectors from the International Atomic Energy Agency unprecedented access to Iran's nuclear programme.

The fact that Iran conducted sensitive research in secret until 2003 shows why we need the intrusive inspections allowed by the Iran nuclear deal today. The verification provisions in the Iran nuclear deal would make it harder for Iran to restart any such research. That is another good reason for keeping the deal while

building on it in order to take account of the legitimate concerns of the US and our other allies.
