## [Press release: UK and US further collaboration in science and innovation by deepening ties in medical technology](#)

- Science Minister Sam Gyimah has visited Boston, Houston and Washington DC marking one year on from the signing of the landmark science and technology accord
- following his return, he confirmed a new fact-finding mission to Texas for UK businesses and academics to open up opportunities to the UK Life Sciences sector
- during the visit, the minister met with leading academic institutions, innovative businesses and tech disruptors to learn first-hand how the US supports innovation

Marking one year on from the UK signing a landmark Science and Technology Cooperation Agreement with the US, Science Minister Sam Gyimah has visited Boston, Houston and Washington DC to meet disruptive businesses, hear from innovators and announce a further research partnership in medical technology.

The minister confirmed a winter fact-finding mission with UK experts from the life sciences sector set to visit Texas to seek out opportunities for global innovation. Both the UK and Texas have a stellar reputation in the life sciences and the US state is home to America's leading cancer hospital. During the November visit, businesses and academics will explore new access to US markets for more UK innovators.

A total of 17% of UK research and development investment is financed from abroad, and the modern Industrial Strategy commits to keeping the UK connected to other leading international sources of ideas and learn about advances being made around the world.

Science Minister Sam Gyimah said:

Science has no borders. By collaborating with our US colleagues, we are pooling our power to find the answers to the biggest science questions of today and making the most of the inventions of tomorrow.

Building on our reputation as a global force in science is at the heart of our modern Industrial Strategy and we will continue to learn with and from international innovators to push new boundaries.

The minister used the opportunity to learn how leading academic and business partnerships between the UK and the US are commercialising technology. One example being the partnership between the University of Cambridge and Massachusetts Institute of Technology in Boston, which is developing research programmes to generate new ideas and encourage entrepreneurship that improve productivity and competitiveness.

During the trip the minister met:

- LearnLaunch and its member community to learn about the emerging Education Technology in Boston
- aerospace start-ups in Houston and NASA's senior leaders at the Johnson Space Centre and in DC to promote UK investment in aerospace and to highlight our ambitions for the UK space sector
- the Challenger Education Centre about how we can work together to use space to inspire and challenge more young people to take up stem subjects
- National Institutes for Standards and Technology (NIST) where he discussed the vital role that science and technological standards play in supporting US innovation

## [Press release: FCO statement on international efforts to implement UN Security Council Resolutions on North Korea](#)

An FCO spokesman said:

We welcome the announcement about the coordination of efforts from international partners in enforcing sanctions on North Korea. The UK stands shoulder to shoulder with the United States as well as Australia, Canada, France, Japan, and New Zealand in our commitment to ensuring UN Security Council Resolutions are fully enforced.

Until we see North Korea take tangible steps towards complete, verifiable, and irreversible denuclearisation the UK will remain steadfast in our support of international efforts, particularly those focused on disrupting maritime sanctions evasion. It is incumbent on all UN member states to be vigilant and proactive in their enforcement of sanctions on North Korea.

# Press release: Trade Policy Minister in Taiwan to champion stronger trade links

- Trade Policy Minister George Hollingbery is in Taipei for 21st meeting of annual trade talks
- Recent meeting saw Taiwan allow its first imports of quality British pork
- Minister Hollingbery agrees joint commitment to further fintech sectors

While in Taipei, the Minister will meet with President Tsai Ing-Wen, the Minister of Economic Affairs Shen Jong-Chin and the Minister of Foreign Affairs Joseph Wu to discuss UK-Taiwan trade relations and opportunities for growth, including financial services.

The annual UK-Taiwan trade talks, chaired by Minister Hollingbery and Taiwan's Vice Minister of Economic Affairs, Wang Mei-Hua, will focus on building stronger trade and investment links and resolving market access issues, and celebrating the recent introduction of British pork products to the Taiwanese market.

The visit will be marked by further development of the already close co-operation between the UK and Taiwan finance sectors, as Minister Hollingbery witnesses the signing of a Memorandum of Understanding between the British Office in Taipei and the Taiwan Financial Services Roundtable committing to close co-operation and promotion of our fintech sectors.

The Minister will also meet UK businesses in Taiwan including the offshore wind, financial services and pharmaceutical sectors.

## **Trade Policy Minister, George Hollingbery, said:**

"I am delighted to be in Taipei at the 21st annual trade talks with Taiwan, building ever closer links in the world's fastest growing region. Our trade with Taiwan is worth £5.5 billion, supporting jobs and prosperity in both our economies, so it is vital that we ease barriers to trade wherever we can, even before we leave the EU.

"It is my pleasure to witness the signing of a Memorandum of Understanding committing to even closer co-operation in our finance sectors, building on an already productive trading relationship."

## **Trade with Taiwan**

UK-Taiwan bilateral trade rose to £5.5 billion in 2017, making Taiwan the UK's 8th largest trading partner in the Asia Pacific region. The UK is the most popular destination for Taiwanese investors in Europe accounting for 21% of Taiwan's Foreign Direct Investment in the region in 2017. Around 300 UK

firms are present in Taiwan and there are over 180 Taiwanese firms in the UK.

The minister is joined by Her Majesty's Trade Commissioner for Asia Pacific, Natalie Black, who leads DIT across the region to coordinate the UK government's trade and investment promotion and policy works closely with the wider diplomatic network.
