

[Press release: Environment Agency warns of coastal flooding in Dorset](#)

The Environment Agency is urging people to remain vigilant to potential coastal flooding as high winds and rain is forecast to hit the Dorset coast on Saturday.

Current forecasts show a low pressure storm arriving on Saturday 21 October which, combined with close-to-spring tides, means flood warnings are likely to be issued along the Dorset coast.

Areas likely to be impacted include West Bay, Lyme Regis, Poole Harbour, Chiswell, Preston Beach and Christchurch.

Rachel Jacobs of the Environment Agency said:

We urge people to take care on the Dorset coast this weekend. Strong winds pose a risk of waves overtopping defences and whilst coastal storms can look dramatic, we strongly advise against “wave watching” or taking “storm selfies”.

Please take note of road closures and don't attempt to walk or drive through flood water. Just 30cm of flowing water can move a car and driving through water can also create waves.

Environment Agency teams have been working around the clock to check flood defences and have been taking precautionary measures such as closing tidal gates. Teams will continue to be out this weekend and are ready to respond to flooding.

The Environment Agency continue to monitor the situation and will review plans as and when the forecast changes.

Residents and businesses are encouraged to [sign up to flood warnings](#) on the Environment Agency website. People can also call Floodline on 0345 988 1188. Once registered, if a flood warning is issued, they will receive an automatic message by telephone, SMS text message, email and/or fax.

[Press release: Xylella fastidiosa: UK secures added EU protections](#)

The European Commission's Standing Committee on Plants, Animals, Food and

Feed (SCOPAFF) has approved (Thursday 19 October) increased protections against *Xylella fastidiosa*. The plant disease has devastated olive plantations in southern Italy and is killing plants and trees in areas across Europe.

Last month the Environment Secretary Michael Gove [wrote to the European Commission](#) stressing that if EU protections were not increased, we would consider our own national measures, which could include a suspension of high risk imports. The disease, which could be deadly to our oak trees, would be difficult to eradicate if it was to arrive, which is why the UK has pushed hard for these increased protections to help keep it out.

The new measures incorporate key proposals from the UK and include strengthened movement requirements on high risk plants and require quicker responses to potential findings of the disease.

Following the vote Environment Secretary Michael Gove said:

Xylella poses a serious threat to our plants, trees and horticulture sector and as I made clear to Commissioner Andriukaitis last month, we need to see robust action by the EU against the disease.

I am therefore pleased this has been taken forward. These increased protections will add to our own efforts to protect our horticulture sector and our famous ancient oaks which have stood tall and proud for centuries as a national symbol of strength and survival.

While the measures we pressed for will come into force, we will keep the risk level under continuous review to determine if further measures are needed to keep the disease out of the UK.

When we leave the EU we will have an opportunity to examine all our national biosecurity measures on plant imports to ensure they are as robust as possible and we are doing everything we can to protect the UK against diseases like Xylella.

The new measures will take effect around the end of November, following a formal adoption process in the European Commission and will supplement measures already in place in the UK which require certain plants to be notified to the plant health authorities when they are brought into the country. This enables the Animal and Plant Health Agency to carry out targeted inspections as well as surveillance for disease in the wider environment.

[News story: Civil news: help with how to submit a civil tender](#)

Keep an eye on our tender pages for the latest information on the 2018 civil contracts which will support you in the procurement process.

Answering your questions

We are regularly updating this page and this includes answers to questions about the process submitted by providers through the e-Tendering system.

The deadline for submitting questions was 23.59 on 19 October 2017 for the Selection Questionnaire, face to face and CLA contracts.

We are now working through the answers which will be published in full on our tender pages in the week beginning 30 October 2017.

Meanwhile, interim documents are already available for you to download.

The deadline for questions on the Housing Possession and Court Duty Scheme (HPCDS) contract tender is 23.59 on 7 November.

Face to face and CLA tender deadline

The deadline for submitting a tender for a face to face or CLA contract is 5pm on 10 November 2017 and must include a response to the Selection Questionnaire.

HPCDS tender deadline

Applicants wishing to submit a tender for HPCDS must submit a response to the Selection Questionnaire and Face to Face Contract Housing and Debt Invitation to Tender (ITT) by 5pm on 10 November.

In addition, a response must also be submitted to the HPCDS applicant ITT and each of the scheme area ITTs they wish to bid to deliver by 5pm on 4 December 2017.
