[National Statistics: UK sea fisheries annual statistics report 2016](#)

Please note: Due to the large amount of data provided some files will take longer than normal to download. Contact statistics@marinemanagement.org.uk if you encounter any technical difficulties.

Each statistical table breaks down information by key areas, such as species and landing port. They are presented according to the chapter of the report they relate to.

The following underlying data sets provide full information on landings, both quantity and values, by vessel length (such as 10 metres and under and over 10 metre vessels), gear grouping and species.

Summary of changes to tables

The statistical tables in both the United Kingdom Sea Fisheries Statistics publication itself and accompanying tables may differ slightly from year to year. This summary details changes to the tables since 2006.

Pre-release access list

The pre-release access order 2008 restricts who can see official statistics before they're published. Ministers and officials are provided with early access for the sole purpose of being able to respond completely when questions arise at the time of release. In line with the Release Practices Protocol, early pre-access is provided no earlier than 24 hours before release.

[Press release: IPO launch new IP resources for universities and colleges](#)

This week saw the launch of a suite of new tools developed by the Intellectual Property Office (IPO). The new toolkit will help students, teachers and lecturers explore the relevance of IP in their lives and future careers.

[The Future Innovators Toolkit](#) (FIT) provides Science, Technology, Engineering and Mathematics (STEM) teachers with the resources they need to introduce IP at any point in the curriculum.

Focussing on developing enterprise and employability skills, FIT consists of lesson plans, case studies, research scenarios and PowerPoint slides. These resources raise understanding of managing and exploiting IP and prepare STEM students for Higher Education or their careers.

IP Tutor Plus has also been launched to support university lecturers and deliver consistent messaging on IP. [IP Tutor Plus](#) explains what IP is and how it fits into their students' future careers. It includes slides, lecture notes, FAQs, case studies and wider talking points. The Law, Business & Accounting module is currently available. The Creative, Humanities and STEM modules are coming soon.

The IPO recently launched [IP for Research](#) for PhD students and researchers to understand the importance of IP in maximising the impact of their research. The IP for Research programme includes 6 quick guides on the commercialisation process, face-to-face workshops and an IP skills lens.

With IP Tutor, Intellectual Asset Management Guide for Universities and Lambert Toolkit already supporting students, management and collaborations. These new tools complete the comprehensive support for students, lecturers and researchers.

Future Innovators Toolkit, IP Tutor Plus and IP for Research are all available on the [Cracking Ideas portal](#).
