

# [Detailed guide: Apply for a scientific research dispensation](#)

*Updated:* Text added

Please complete the dispensation request form and submit it to the Marine Management Organisation (MMO). We aim to make a decision on most applications within 20 working days, however, each application is different and some applications will take longer than this if we are required to consult with other regulatory bodies.

## [Dispensation request form](#)

PDF, 152KB, 4 pages

You must notify the MMO if your research is not being carried out on a licensed fishing vessel. An email stating the vessel name, dates of the survey, type of survey and equipment used should be sent to [dispensationrequests@marinemanagement.org.uk](mailto:dispensationrequests@marinemanagement.org.uk)

Examples of activities that require a dispensation include:

- using undersized nets or modified trawls
- catching and keeping on board undersized fish species
- fishing beyond set [effort management limits \(days at sea\)](#)
- catching and landing fish over a vessel's catch limits – MMO may be able to provide extra quota to licensed fishing vessels involved in research
- catching and landing fish stocks for which a vessel has no quota allocation

2% of quota allocated to England is in principle available for scientific dispensations. For any quota requests made by applicants for dispensations the MMO will determine whether the quota can be granted based on the context of the application and the availability of the specific quotas.

## **Licensing and consenting requirements**

You may require additional licenses and consents to carry out your proposed research. This is relevant regardless of which type of vessel you are using, and whether you require a fisheries dispensation.

### **Protected species**

A [marine wildlife licence](#) is required by anyone who wishes to carry out an activity in the English marine area or the Welsh offshore area that is

prohibited under nature conservation legislation where the activity cannot be sufficiently mitigated against.

## **Marine licensing requirements**

Work within the dispensation application may also require a marine licence or application for an exemption. It is the applicants responsibility to ensure that they have all relevant licences in place before they start any survey. Information on the [application process](#) and list of licensable activities is available.

## **Marine Protected Areas (MPA)**

The MMO is responsible for making byelaws in English inshore waters to protect European Marine Sites (EMS) and Marine Conservation Zones (MCZs) from activities that may harm them; these may be commercial and/or recreational. [MMO byelaws](#) must help to further the conservation objectives of the site.

You may be required to comply with these [byelaws](#) and, unless stated, the derogation does not allow you to operate where it is not permitted within the sites.

Your dispensation application will ask you to provide details of any marine protected area you may be operating in. A [map](#) and details of all marine protected areas can be found on the [Joint Nature Conservation Committee \(JNCC\)](#) website.

Foreign vessels engaged in research or UK vessels which do not complete a dispensation application are encouraged to complete a voluntary notification form if the survey will take place within or close to an MPA.

MPA activity – [Voluntary notification form](#)

## **Other authority consents**

You may also require consent or approval from other bodies before you are able to carry out the work that the dispensation applies to.

Local byelaws are the responsibility of the local Inshore Fisheries and Conservation Authority (IFCA). You should familiarise yourself with the IFCA byelaws in your research area and [contact your local IFCA](#) if necessary.

If your research involves salmon, eels, elvers, lamprey, sea trout, smelt or crayfish the [Environment Agency](#) should also be contacted to discuss your research.

If your research involves work within a Site of Special Scientific Interest (SSSI) Natural England should be contacted to discuss the research application.

## Further information

For research in other UK waters, dispensations will be issued by:

- [Department of Agriculture, Environment and Rural Affairs](#)
- [Marine Scotland](#)
- [Welsh Government](#)

Under international law, all states have the right to conduct marine science research subject to the rights and duties of other States. The [Marine Science Research \(MSR\)](#) webpage contains application forms and guidance.

The UK Government has a target to protect habitats and species in our seas. Foreign vessels engaged in research are encouraged to complete a voluntary notification form.

## [Voluntary notification form](#)

PDF, 69.9KB, 3 pages

**This file may not be suitable for users of assistive technology.**

**[Request an accessible format.](#)**

If you use assistive technology (such as a screen reader) and need a version of this document in a more accessible format, please email [communications@marinemanagement.org.uk](mailto:communications@marinemanagement.org.uk).

Please tell us what format you need. It will help us if you say what assistive technology you use.

## Contact information

### Marine Conservation Team

To discuss fisheries dispensations, wildlife licensing and Marine Protected Areas.

Telephone: 0300 123 1032

[dispensationrequests@marinemanagement.org.uk](mailto:dispensationrequests@marinemanagement.org.uk)

### Fisheries Management Team

Telephone: 0300 123 1032

[fmc@marinemanagement.org.uk](mailto:fmc@marinemanagement.org.uk)

## **Marine Licensing Team**

To discuss sampling and sediment analysis.

Telephone: 0300 123 1032

[marine.consents@marinemanagement.org.uk](mailto:marine.consents@marinemanagement.org.uk)

## **Marine Conservation and Enforcement Team**

To discuss wildlife licensing and Marine Protected Areas.

Telephone: 0300 123 1032

## **[Collection: Harbour orders public register](#)**

*Updated:* Transfer of Mutford Lock HRO's added

There is an [archived version of the register](#) that includes details of more applications.

---

## **[Collection: Marine licensing: nationally significant infrastructure projects](#)**

*Updated:* Hornsea Two Offshore Wind Farm – Variation 1 added

The Marine Management Organisation (MMO) is involved in different nationally significant infrastructure projects (NSIPs) in the English inshore and offshore, and Welsh offshore areas under the Planning Act 2008. The Planning Inspectorate (PINS) examine these applications and provide recommendations to the Secretary of State.

MMO acts as a:

- statutory consultee during the pre-application stage
- interested party during the examination stage
- licensing and consenting body

If a development consent order (DCO) is granted, MMO is responsible for enforcing, post-consent monitoring, varying, suspending, and revoking any deemed marine licence(s) as part of the DCO.

## Variation of a deemed marine licence (DML)

The MMO is able to vary a DML in accordance with [section 72 of the Marine and Coastal Access Act 2009](#). Requests to vary a DML should be submitted in writing to MMO and should include:

- a cover letter
- detail of the proposed change(s) to the DML
- a supporting summary statement detailing why the proposed variation is permissible with reference to the original application and in consideration of any implications for the existing DCO
- any additional supporting information required.

Variations to DMLs are chargeable and further [guidance on fees](#) is available.

## Further information

The [National Policy Statement for Ports](#) provides the framework for decisions taken by the Secretary of State.

The 6 [National Policy Statements for Energy Infrastructure](#) apply to NSIPs in England and Wales, including territorial waters and to any offshore renewable energy zone.

---

# [Collection: Monthly UK sea fisheries statistics](#)

*Updated:* June 2018 stats added

This is a National Statistics publication.

The monthly landings statistics will be released at 9.30am on the 4th Friday of each month, or the next working day if this is a bank holiday.

The Marine Management Organisation follows all [Defra statistical policies](#).

You can access [historic monthly statistics](#) from the national archives or from

the [2008 to 2013 spreadsheet](#).

---

## **Collection: UK sea fisheries annual statistics**

*Updated:* UK sea fisheries annual statistics report 2016 added

The publications include information on:

- the structure and activity of the UK fishing industry
- landings
- supplies, overseas trade and marketing
- main stocks and their level of exploitation
- the world fishing industry

UK Sea Fisheries Statistics archive (pre-2012) is [available online](#).

### **Additional information**

#### **National statistics**

United Kingdom Sea Fisheries Statistics and its subsidiary publications, The UK Fishing Industry: Structure and Activity and The UK Fishing Industry: Landings adhere to the [Code of Practice for Official Statistics](#). More information, as well as [uses of the statistics](#).

#### **User consultation**

The 2009 edition of United Kingdom Sea Fisheries Statistics introduces a number of changes to the format, quality and content of the publication based on [user consultation](#) that took place in February 2010.

#### **Special note**

Information relating specifically to the 2009 version of United Kingdom Sea Fisheries Statistics is provided. [This document](#) includes changes based on the user consultation.

#### **Table of species**

This table provides a list of species included in United Kingdom Sea Fisheries Statistics. Species are classified by group. The species code and Latin name are also provided. Where there is a group title, the species included within the group are listed. For example, 'Oysters' is a group title used in UK Sea Fisheries Statistics and species included in this group are:

<b>Species</b>	<b>Latin name</b>
Oysters	Ostrea spp
Native Oysters	Ostrea edulis
Pacific Oysters	Crassostrea gigas
Portuguese Oysters	Crassostrea spp

- [Excel version](#)
- [PDF version](#)

The Marine Management Organisation follows all [Defra statistical policies](#).
