[Government Fails to Deliver 'Ten's of Thousands' Net Immigration](#)

Net Immigration to year ending March 2017 was estimated to be 246,000, down 81,000 from 327,000 in March 2016. Immigration was still nearly 600,000.

After years of uncontrolled mass immigration from the EU a slowdown in migration from the EU and an increase in emigration of EU citizens accounts for a substantial percentage of the change.

[Home Office terror report is purely a hangover from Project Fear](#)

“This report was produced by the Home Office, then under Theresa May, prior to the referendum and at a time when the government had an official and well publicised policy of not allowing civil servants to support the leave campaign. It was produced during the era of the now discredited ‘Project Fear’”, said Steve Crowther, UKIP’s interim Leader “The reality is that the EU facilitates only symbolic intelligence cooperation between member states”.
