

Vince Cable: Labour is failing young people in Manchester on Brexit

Vince Cable has warned that young people in Manchester are being robbed of opportunities by the Government's push for a hard Brexit and that Labour is failing to stand up for them.

The Inspectorate is clear, police funding and police numbers have been cut under the Tories – Abbott

Following today's publication of the PEEL report on the effectiveness of individual police forces in England and Wales, **Labour's Shadow Home Secretary Diane Abbott said:**

"HMIC has previously warned that the police are not well equipped to prevent crime. These individual assessments of police forces show that verdict is fully justified.

"We have some police forces artificially lowering demand, crimes being written off and fewer arrests being made, even for serious crimes. HMIC also found that in some forces key capabilities, such as skilled investigators and community policing are insufficient or are declining.

"We should be clear. This is not the fault of the police forces of individual officers. The government is in denial, but the Inspectorate is clear, police funding and police numbers have been cut under the Tories. This is where the problem lies. These problems of police effectiveness are a Tory failure."

The Centre for Environmental Geochemistry secure £450,000 funding for research on the Red River Delta,

Vietnam

A new £450,000 research project investigating sustainable water management on the Red River Delta in Vietnam has recently been awarded UK and Vietnamese Collaborators under the Newton funding Scheme. The project will involve collaborators from the School of Geography at the University of Nottingham (in UK and Malaysia), British Geological Survey and the Vietnam Academy of Science and Technology (VAST) in Hanoi.

Firm fined after worker injured when pipe fell into trench and struck him

An Essex company who are specialists in gas infrastructure have been fined after an employee suffered serious injury when a pipe fell into the trench he was working in and struck him.

Maidstone Crown Court heard how an employee of Forefront Utilities Limited had entered a trench in Rochester, Kent to connect gas pipes. The new pipes were rested on packing timber across the trench, but the weight caused the tarmac to give way. The pipe fell into the trench and struck the employee causing significant injury including a fractured spine. He is paralysed and has no feeling in his bowel.

An investigation by the Health and Safety Executive (HSE) into the incident which occurred on 23 May 2014 found the method for jointing newly laid sections of pipe to previously laid pipe was unsafe.

Forefront Utilities Limited, of Stephenson Road, Leigh-on-Sea, Essex, were found guilty of breaching Section 2(1) of the Health and Safety at Work etc. Act 1974, and was fined £200,000 and ordered to pay costs of £56,686.

After the hearing HSE inspector Andrew Cousins said: "Those in control of work have a responsibility to devise safe methods of working and to provide the necessary information, instruction and training to their workers in the safe system of working.

"If a suitable safe system of work had been in place prior to the incident, the life changing injuries sustained by the employee could have been prevented."

Engineering firm fined after worker crushed in machinery

Moy Park Ltd has been fined after a worker was injured at the company's site in Anwick near Sleaford, Lincolnshire

Lincoln Crown Court heard on the an engineer was checking the blades on the cutting line when the machine restarted and he wasn't able to move his hand away from the blade he was inspecting when the machine started up. The worker suffered deep laceration to his hand as a result of this incident.

An investigation by the Health and Safety Executive (HSE) found the company failed to implement a safe system of work in relation to isolating procedures when maintaining the machinery in the production line.

Moy Park Ltd of Main Road, Anwick, Lincolnshire have pleaded guilty to breaching Section 2 (1) of the Health and Safety at Work Act 1974 and have been fined £200,000 and ordered to pay costs of £11,924.

Speaking after the hearing HSE Principal Inspector David Butter said: "Duty holders must put measures in place to ensure there are safe procedures in place which are then followed when checking faults on machinery."
