

Why is the EU isolated?

Mr Tusk's cry of desperation portrays an EU surrounded by hostile forces, and in danger of subversion from within. He sees Russia as an enemy of the EU. He condemns Islamic terrorism and is clearly worried about several states to the south across the Mediterranean. He dislikes the policy of the new President of the USA. He makes no secret of his worries about China. In other words, he sees the EU as a lonely group of states in a largely hostile world, where the world's three largest military powers are not in sympathy with the EU or are hostile to it.

What is his remedy? He wants the EU to arm itself and undertake more common defence, with increased defence spending. There is no mention of NATO, Europe's principal security guarantor. He wants to accelerate European union, to create a more cohesive force in the world with a united foreign policy.

He should ask himself how has the EU got itself into such an impasse with the world's great powers?

The EU has helped create the rift with Russia. The EU claims cause against Russia for Russia's illegal military intervention in Crimea. Russia points out the EU helped destabilise the elected President of Ukraine who was just about keeping Ukraine together, to back a new President with a pro EU agenda that the Russian speakers in the country did not support. At the very least we in the west must concede that the EU helped create the conditions for an opportunistic move into Crimea by Russia. Since then the EU has wished to keep up a tough rhetoric against Russia, and has imposed sanctions. I am no supporter of Russian aggression, but I do want the EU to recognise the need to live alongside Russia and to be careful about the interventions it makes in territories where Russia has influence. Working with Russia in the Middle East is now important given the position Russia has militarily and diplomatically in the region, as successive US Presidents have recognised.

The EU also needs to understand that the surest defence the EU has is from NATO, with the explicit military guarantee for all members.

The EU now seems to want to assert itself against China, though the cause and reason is less clear than with Russia. The EU regularly condemns Islamic terrorism, but is challenged when it comes to defining which rebels and forces on the ground in the complex Middle Eastern civil and religious wars qualify as terrorists and which can be defeated by EU action. In recent days the EU has been keen to indulge in a war of words against the new Trump Presidency, without listening to the concerns of the new Administration in Washington about trade, currencies and migration.

The overriding pessimism of Mr Tusk is sad to read. The lack of any positive forward looking agenda to engage with our ally the USA, or with the powers of China, Russia and the Middle East goes a long way to explaining the EU's loneliness. If all you offer is fear mixed with the odd threat it is not surprising the EU lacks friends. It was that combination which helped lose the EU one of its major financial contributors, the UK.

5-magnitude quake hits Tibet; no casualties reported

A 5.0-magnitude earthquake jolted Zhongba County in Tibet on Wednesday, February 1, 2017. [Photo: China Earthquake Administration]

A 5.0-magnitude earthquake jolted Zhongba County in southwest China's Tibet Autonomous Region at 6:07 p.m. Wednesday (Beijing Time). No casualties were reported.

The epicenter was monitored at 30.67 degrees north latitude and 83.34 degrees east longitude. The quake struck at a depth of 8 km, according to the China Earthquake Networks Center.

The epicenter, 124 kilometers from the county seat and 757 kilometers from Lhasa, is in an uninhabited zone and therefore the moderate quake caused no injuries and death of people and livestock, Wei Xince, deputy county governor, told Xinhua by phone.

Local authorities were checking damages to roads and makeshift livestock pens in the summer pasture.

Zhongba, which is in the western-most of Xigaze prefecture and borders Nepal, covers an area of 45,900 square kilometers and has a population of 24,800. It has an average altitude of over 5,000 meters.

[China sees rising traffic as holiday nears end](#)

China's transport system saw rising traffic Wednesday as millions of people started to return to work after the week-long Lunar New Year Holiday.

Some 9.7 million passenger trips were estimated on Chinese railways on Wednesday, year-on-year growth of 9 percent, as the week-long holiday draws to a close Thursday, according to China Railway Corporation.

Traffic on expressways around major cities also increased, leading to rising congestion.

During the New Year holiday, hundreds of millions of people go back to their hometowns to meet relatives and old friends, and as Chinese people become more affluent and keen to travel, pressure on the transport system is huge.

Data from the China National Tourism Administration showed some 27.4 million

visitor trips were made in China Wednesday, up 14.1 percent year on year.

Tourism revenue reached 34 billion yuan (about 4.96 billion U.S. dollars) on the day.

[Caroline Lucas: Vote tonight is a body blow in fight against extreme Brexit](#)

1 February 2017

***Lucas: "Watching so many Labour MPs troop through the yes lobby with the Tories was truly disheartening."**

Caroline Lucas, the Green Party co-leader, has responded to Parliament's vote in favour of triggering Article 50 tonight. In the vote on the second reading of the European Union (Notification of Withdrawal) Bill tonight, 498 MPS voted in favour of triggering Article 50 and 114 MPs voted against. [1]

Lucas said:

"Tonight's vote is a body blow for the fight against the Government's extreme Brexit, and has handed the Tories a massive advantage.

"Watching so many Labour MPs troop through the yes lobby with the Tories was truly disheartening. The Conservatives are set to benefit hugely from rushing through this vote with as little dissent as possible and it's given them far more opportunity to morph a narrow referendum result in favour of leaving the EU into an overwhelming mandate to depart from the world's biggest trading zone, wrecking our social and environmental protections along the way.

"It's now down to MPs to work across party lines to amend this Bill and attempt to avoid the very real dangers of Britain falling off the Brexit cliff edge. As the co-leader of a party that stands for environmental, social and economic justice, I could not support a government offering no assurances to EU nationals living in Britain, threatening the funding of our public services, and planning to end our membership of the single market and customs union. In the coming weeks I'll be standing up to this Government's extreme Brexit plans at every stage – and doing all I can to protect our hard won environment and social protections."

[Follow up on flooding](#)

I am pursuing the issues of whether the following actions would help reduce local flood risk. This includes asking the authorities what progress they have made on the possible projects beneath. I would be interested in local comment on what is needed.

1. Bund water containment on flood plain by the Emm
2. Emm deepening and widening of water course in Wokingham and Winnersh
3. Dredging of River Loddon at Loddon Bridge
4. Containment of Loddon with higher banks at Loddon bridge roundabout
5. Raising of road at Loddon bridge roundabout
6. Increased water retention capacity in safe areas in Shinfield and Arborfield
7. Further measures around Emmbrook School
8. Measure to contain water which currently can reach homes in Earley
9. Larger measures being considered for the course of the Loddon more generally
