Clarification Regarding Release of Funds to Prasar Bharti

It has come to the notice of the Ministry that a deliberate, sinister, motivated campaign has been launched by some elements to wrongfully tarnish the image of the Ministry of I&B by reporting that money to Prasar Bharti is not being released after December, 2017 as a retaliation to Prasar Bharti not obeying certain dictates of the Ministry.

Statement by Eurogroup President Mario Centeno on Greece

Press contacts

Luis Rego

Eurogroup President Spokesperson
+352621136935

I have been informed that the Eurogroup Working Group on 2 March verified that all prior actions of the third review of the Greek ESM programme have been completed.

The full implementation of the prior actions confirms the commitment of the Greek government to the programme and a continued reform effort.

The ESM Board of Directors is expected to approve the disbursement of the fourth tranche of the ESM programme after national parliamentary procedures have been completed.

This will pave the way to the release of the first subtranche of €5.7bn in the second half of March.

We have now entered the final lap of the ESM Greek programme. The fourth and final review is ongoing. So is the technical work of possible new debt relief measures.

Greece has started its return to market financing and the Greek government is

working on a long-term growth strategy, which will be critical to define the post-programme framework.

I'm confident this will help Greece to return to an equal footing with its European partners and leave crisis days behind.
