

[Greater focus for farm woodland in “Tree Oscars”](#)

Two prizes of £1,000 are on offer for the finest farm woodlands in Scotland in the country’s annual ‘Tree Oscars’, with SAC Consulting among the sponsors.

[Chance for farmers to make fat profits from thinning](#)

With current high timber prices, now is a good time to thin crops.

[Lucky 13 in national final](#)

Top apprentices and trainees from SRUC represent more than half the line-up at this year’s Land-based and Aquaculture Learner of the Year Awards.

[And the beet goes on...](#)

Fodder beet is an “exciting crop” that provides ewes with essential protein and energy while also reducing the cost of feeding over winter.

[No more lame excuses](#)

Work has begun on a new £1 million research project to discover what causes lameness in dairy cows.
