

## **Straight from the horse's mouth**

Equine Studies students got a chance to learn straight from the horse's mouth on a study tour of the Scottish Borders.

---

## **Protein replacement poses challenge**

Capacities for completely replacing animal protein in the human diet are limited and would require "major changes" in the structure of global agricultural food systems, according to new research.

---

## **Driving forward low-carbon farming**

A new farmer-led initiative is aiming to drive low-carbon, environmentally sustainable farming practices in Scotland.

---

## **Brand new arable event for Scotland**

SRUC is one of three industry organisations to have joined forces to launch a brand new field-based arable event for Scotland.

---

## **Spreading the word**

The range of innovative teaching methods used by Scotland's Rural College has been shared at an Irish education conference.
