

Balgay Bench #dundeewestend

A resident recently wrote to me :

“We were a bit bemused this morning as we walked through the old part of the Balgay cemetery. I know the council is big on keeping things au natural in way of cutting the grass etc but would just about need a machete to sit at this bench”

Good point!

I raised this with environment management and have received the following and helpful response :

“... will get the grass around this bench stimed as soon as practical.”
