

Bringing science to community

The Science Promotion Unit (SPU) of the Leisure and Cultural Services Department uses creative means to reach out to the community to promote scientific thinking, from an outreach vehicle introducing nanoscience to online platforms explaining the science of everyday life.

News.gov.hk spoke to SPU representatives to find out about the different ways in which they engage the public in science.

The story is available at www.news.gov.hk/eng/feature today (November 26) in text and video format.
