

Bus services changes affecting West End from 3rd January #dundeewestend

Xplore Dundee is making several changes to bus services from next Monday, 3rd January.

+ I am very pleased at the launch of a new Service 6 linking Ninewells with Menzieshill, Elmwood Road, Tullideph Road, Pentland Avenue, Blackness Road and the city centre. This will operate hourly and is good news as it assists with provision of services around Ancrum Road and Tullideph Road, something I have been campaigning for since the Service 17 was re-routed right along City Road.

+ The Service 9/10 (Outer Circle) is renumbering as Service 10 – a service linking communities to the north of the city. Service 5 and 10 will interlink to provide a full circular service across Dundee.

+ There will be some slight timetable adjustments to Service 28 (between 8am and 6pm) to improve punctuality. Also, the new 'Electric Emerald' buses to go into service on the Service 28 route, Dundee's first zero-emission buses. I am pictured at the launch event for the Electric Emerald buses which will assist tackle the air quality issues on Lochee Road.

Full details of all the changes are available at www.xploredundee.com/2022Changes
