

Census and Statistics Department revises issue dates of selected press releases on statistical data scheduled for March 2020

In view of the implementation of special work arrangement for government departments since January 29 as a measure to reduce the risk of the spread of COVID-19 in the community, the Census and Statistics Department (C&SD) announced today (February 25) that the issue dates of nine regular press releases on statistical data scheduled for March will be revised.

The revised issue dates are around one to two weeks later than the original scheduled dates. The original and revised issue dates of the affected press releases are set out in Table 1.

As for the other regular press releases on statistical data scheduled for March, which are listed in Table 2, the issue dates will remain unchanged.
