

# Closed consultation: Cycling and Walking Investment Strategy (CWIS) safety review

*Updated:* Summary of responses added.

Invites those with an interest in improving safety of cyclists and pedestrians to provide evidence, drawing on experience from the UK or other countries, that can be used to shape future policy decisions.

This call for evidence forms part of the wider consultation on road safety issues related to cycling – [phase 2 of the Cycle Safety Review, announced in September 2017](#).

A [factsheet on pedal cycle casualties](#) is available.
